Introduction

Thank you for being a QuickLock Ramp customer and welcome to the family.

We do one thing and do it well – build products that make your life easier. Crafting innovative, quality products is our calling and we take it seriously. Strong, modular and versatile, your ramp system is crafted out of the finest materials available and put through our grueling quality check before it ships out the door.

We thank you for your purchase and know that your QuickLock ramp system will definitely steal the show! However, if you should require any assistance or service, you'll find that we take as much pride in supporting our products as we do in designing and building them.

About QuickLock Ramps

• Wheelchair (ADA) and Equipment configurations up to the 48" (120cm).

• Metric and Imperial sizes are available.

• Available in two surface finishes: Industrial finish and Aluminum finish.

• Aluminum finish ramps are fully water proof and are suitable for permanent outdoor installation.

• Flexible and adjustable configurations fit a variety of different needs.

• Straight, 90 degree angle and switch back wheel chair ramp configurations are available.

• Equipment ramps with or without landings are available.

• Can be installation on leveled, flat ground surfaces and uneven surfaces.

• Universal design easily connects to the following stages; IntelliStage, Staging 101, Slim Folding Stage 101, All Terrain, ProFlex, QuickLock and or fixed permanent structures.

• Ramps can be installed onto any permanent structure (such as a house) using a custom designed adapter.

• Easy, fast and simple to install using standard QuickLock platforms and guardrails.

• Fast assembly and installation does not require any additional tools

• Custom ramp configurations can be created to fit your needs.

Weight load rated at: 750 KG / SQ M (153 LBS /SQ FT).

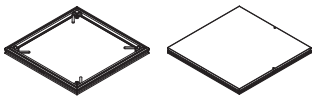

Important Safety Instructions:

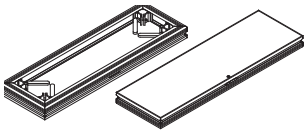

1.) Read and follow all instructions
2.) Do not exceed the maximum weight capacity
3.) Completely secure all panels and hardware

MEET THE IMPERIAL RAMP COMPONENTS

Platforms

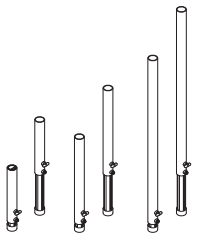

QLP4I, QLP4AL

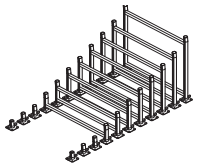

RPS4I, RPS4AL

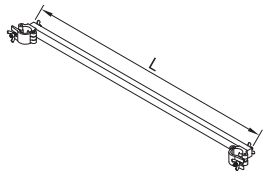

Legs

QLTL1 THRU QLTL3

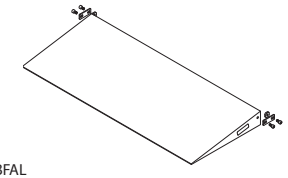

RL1W THRU RL11W

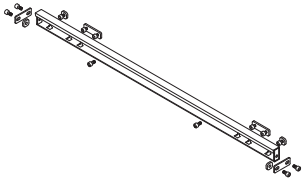

RLBD OR RLBLD

Bottom Plates

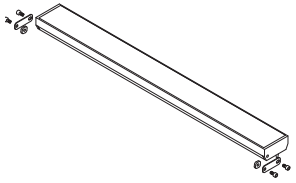

RBP, RBFAL

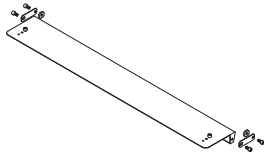

Connecting Panels

RUCP, RUCPAL

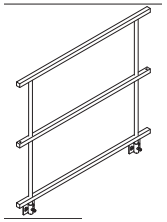

RUCPAT, RUCPATAL

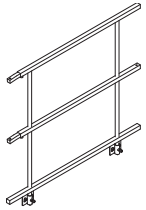

URAMPADAPT, URAMPADAPTAL

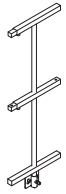

Guardrails

QLGRD4, QLGRS4

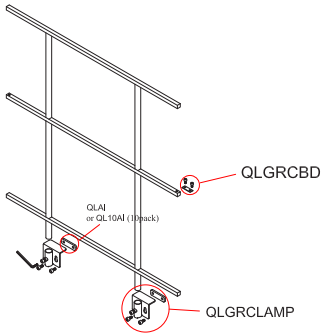

RAGRD4

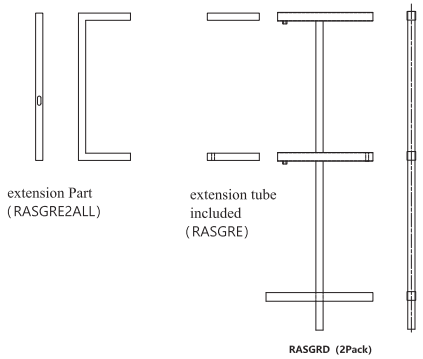

RASGRD

Guardrails

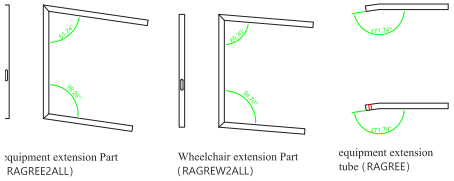

QLAI, QLDAI

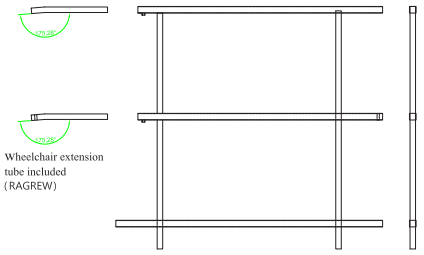

QLGRCLAMP, QLGRCBD

RASGRE/RASGRD

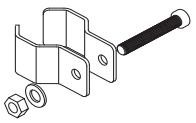

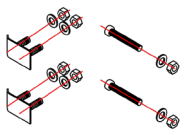

RAGRD4 (2pack)

RAGREE2ALL, RAGREW2ALL, RAGREE, RAGREW

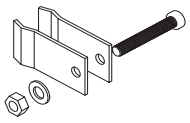

Hardware

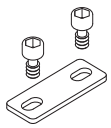

RAGRMB2AT

RAGRMB2IS

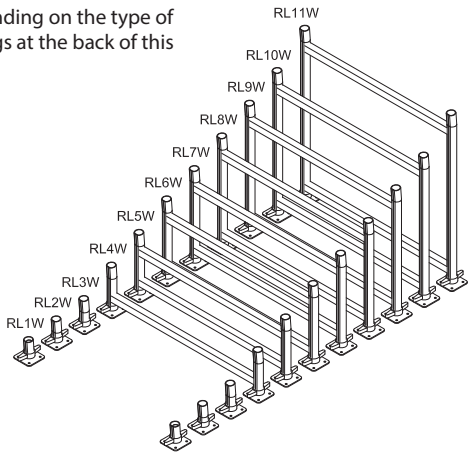

RAGRMB2PF

QLGRCBD

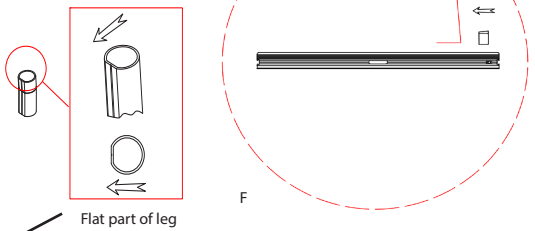

Leg ramp options shown. Your leg sizes will vary depending on the type of ramp you have. Please refer to the ramp model drawings at the back of this manual to find your ramp leg configuration.

ASSEMBLY OF LEGS TO PLATFORMS

How to attach RL1W legs to ramp platforms

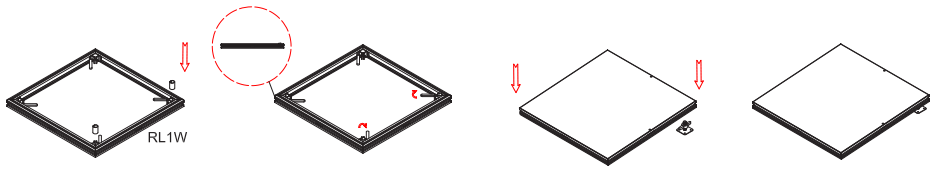

Figure 1

Flat part of leg needs to face front of platfrom F.

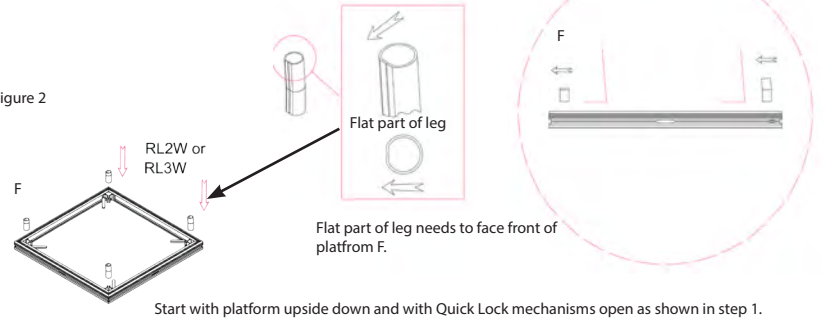

Start with platform upside down and with Quick Lock mechanisms open as shown in step 1.
Place legs into the locking mechanisms of platform as shown in step 2. The flat part of the leg needs to face the front of the platform F as show in Figure 1. Close the Locking mechanism to secure legs into the bottom of the platform as shown in step 2. Set platform right side up and place onto height adjustable feet as shown in steps 3 and 4.

1. 2. 3. 4.

How to attach RL2W and RL3W legs to ramp platforms

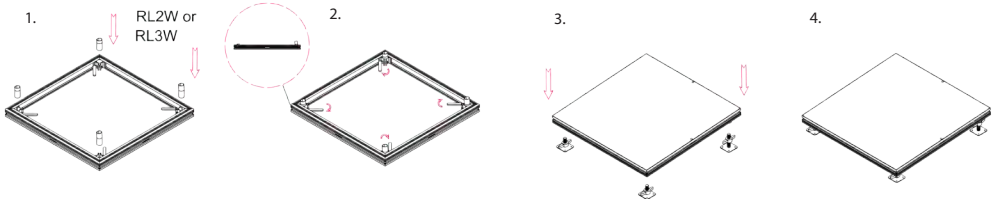

Figure 2

Flat part of leg needs to face front of platfrom F.

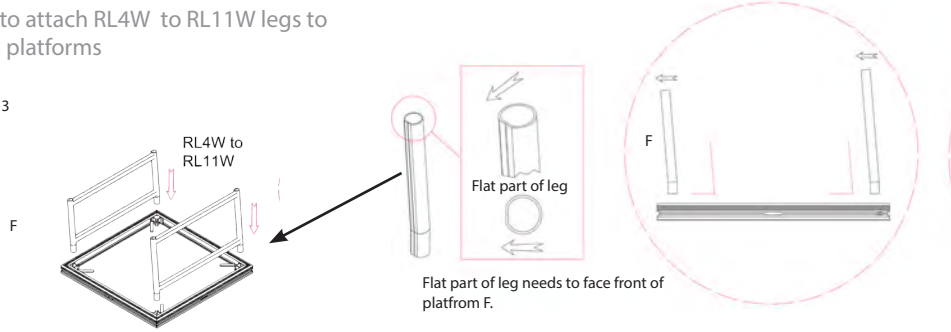

Start with platform upside down and with Quick Lock mechanisms open as shown in step 1.
Place legs into the locking mechanisms of platform as shown in step 2. The flat part of the leg needs to face the front of the platform F as show in figure 2. Close the Locking mechanism to secure legs into the bottom of the platform as shown in step 2. Set patform right side up and place onto height adjustable feet as shown in steps 3 and 4.

1. 2. 3. 4.

How to attach RL4W to RL11W legs to ramp platforms

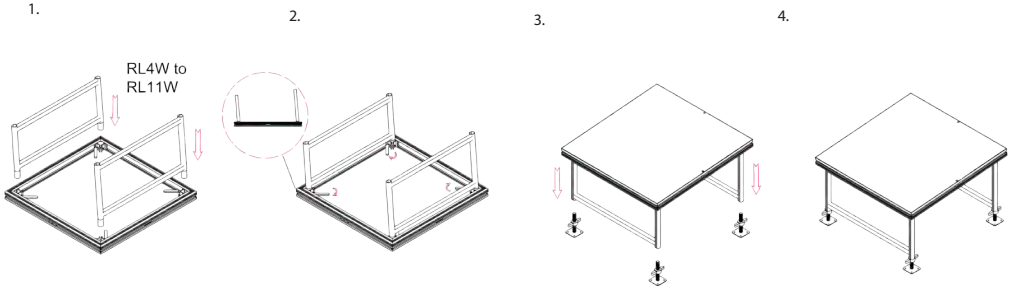

Figure 3

Flat part of leg needs to face front of platfrom F.

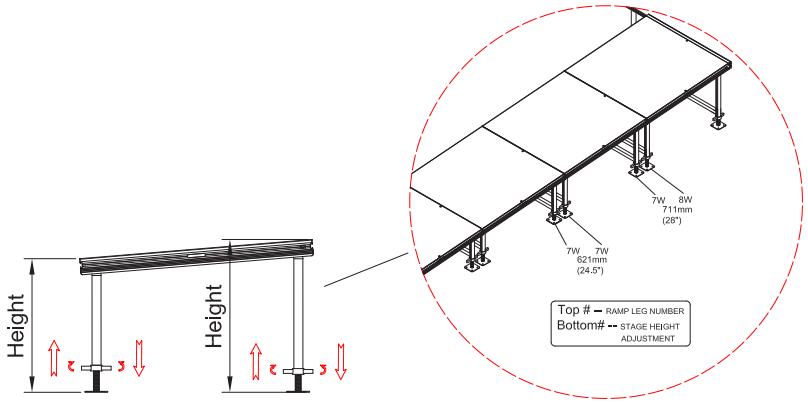

Start with platform upside down and with Quick Lock mechanisms open as shown in step 1.
Place legs into the locking mechanisms of platform as shown in step 2. The flat part of the leg needs to face the front of the platform F as show in figure 3. Close the Locking mechanism to secure legs into the bottom of the platform as shown in step 2. Set platform right side up and place onto height adjustable feet as shown in steps 3 and 4.

1. 2. 3. 4.

LEG ADJUSTMENT

Place seperate platfoms to form your ramp. Do not lock platforms together at this time. Adjust bottom of ramp legs by turning the leg mechanism as shown below to set the ramp evenly. Please refer to your specific ramp configuration shown at the back of this manual. Once the ramp is leveled and all legs are adjusted lock the platforms together with hex key shown in figure 4.

Adjust bottom of ramp ramp legs by turning

Once the ramp is leveled and all legs are adjusted lock the ramps together using hex key as shown below

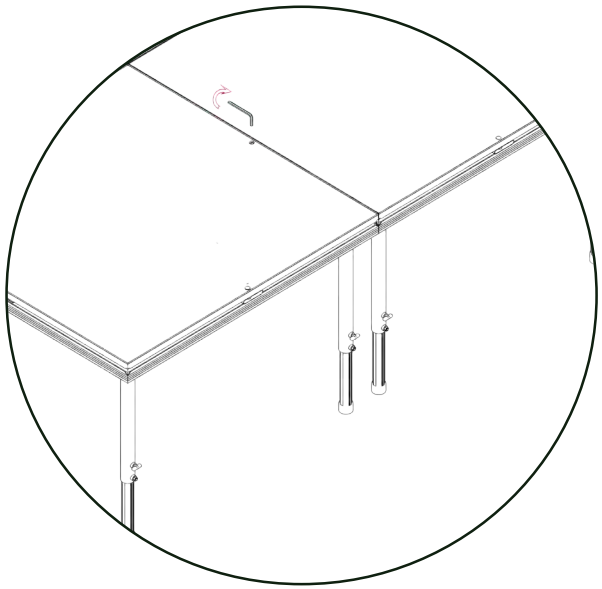

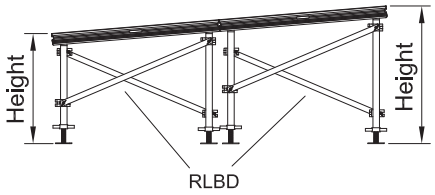

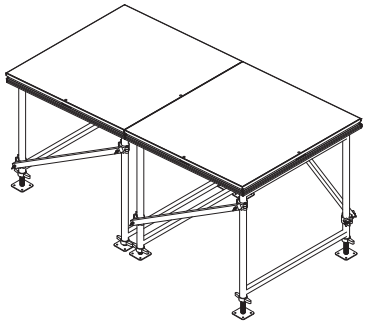

Figure 4

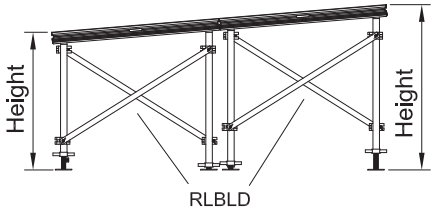

INSTALLATION OF LEG BRACES

For ramps set higher than 32" (80 cm) the use of leg braces RLBLD and RLBD is required to stabilize the ramp. Please refer to your ramp configuration at the back of this manual to see where braces are needed. Leg braces sould be attached as shown below using the mounting hardware provided.

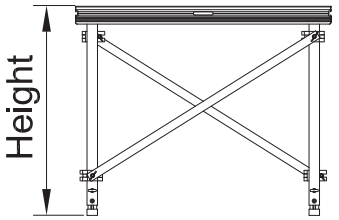

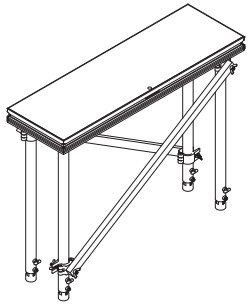

Height between 80cm(32") and 100cm(40") should use RLBD

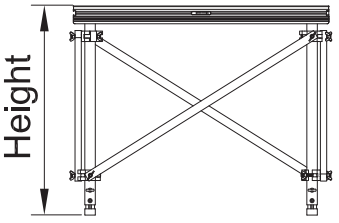

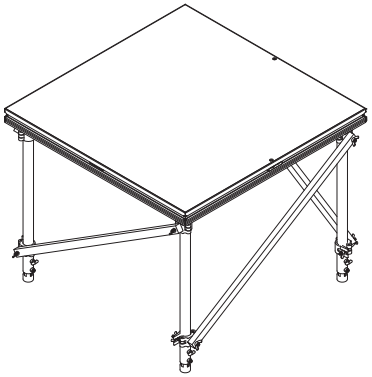

Height between 100cm(40") and 120cm(48") should use RLBLD

ASSEMBLY OF RAMP TO TOP LANDING

Create the top landing as shown in figure 10 by adding multiple platforms and locking them using the hex key. Please refer to your specific ramp configuration shown at the back of this manual.

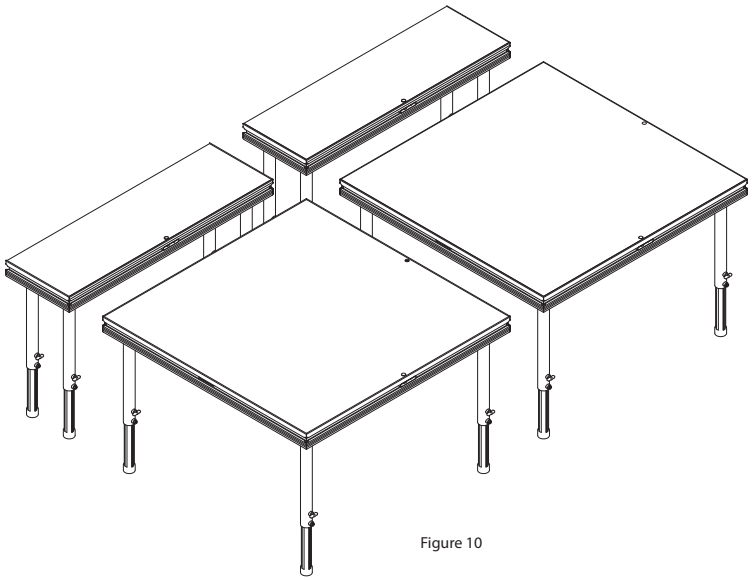

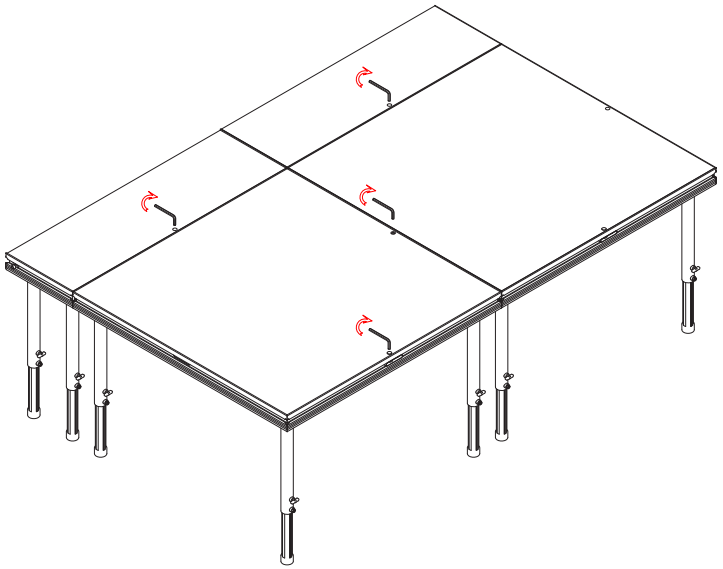

Figure 10

Install the stage connecting panel (RUCP or RUCPAL) to ramp top landing platform using the hardware provided as shown in figure 11

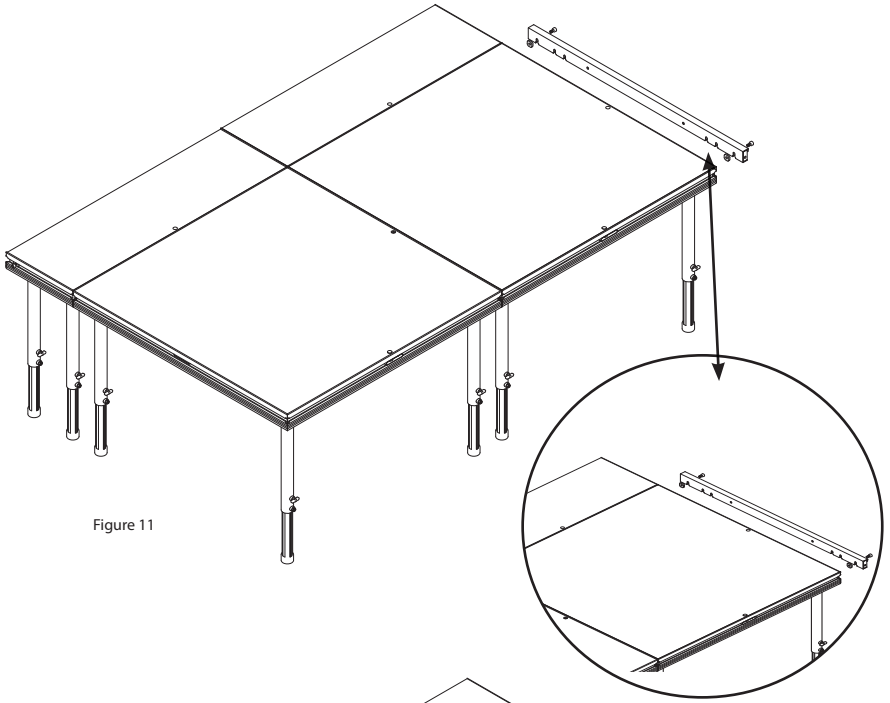

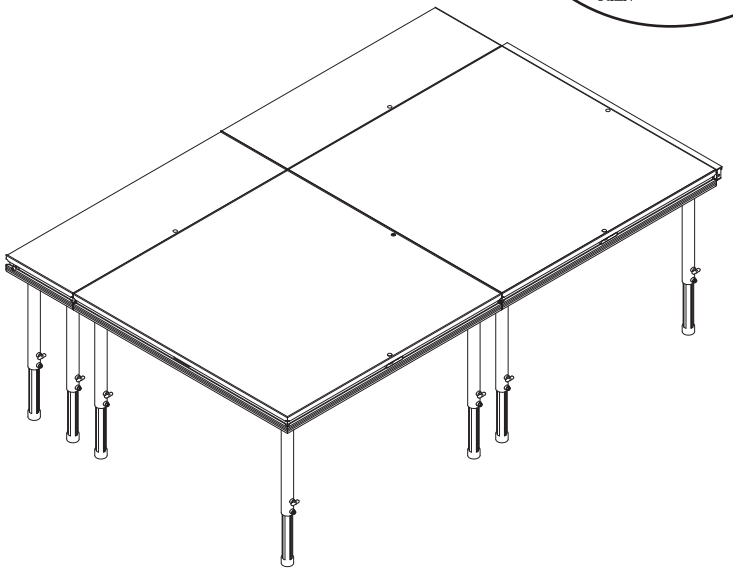

Figure 11

Next attach the platform with the installed stage connecting panel (RUCP or RUCPAL) to the top ramp platform with provided hardware as shown in figure 12

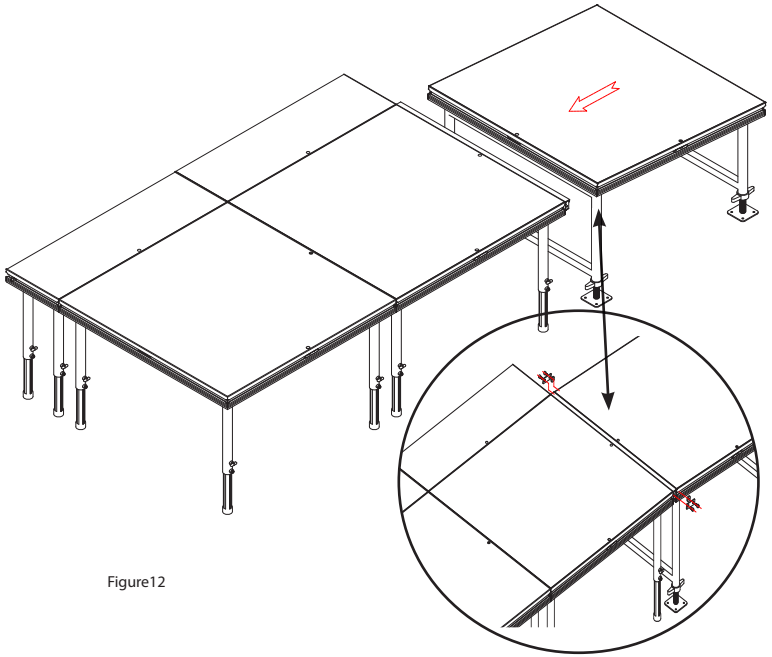

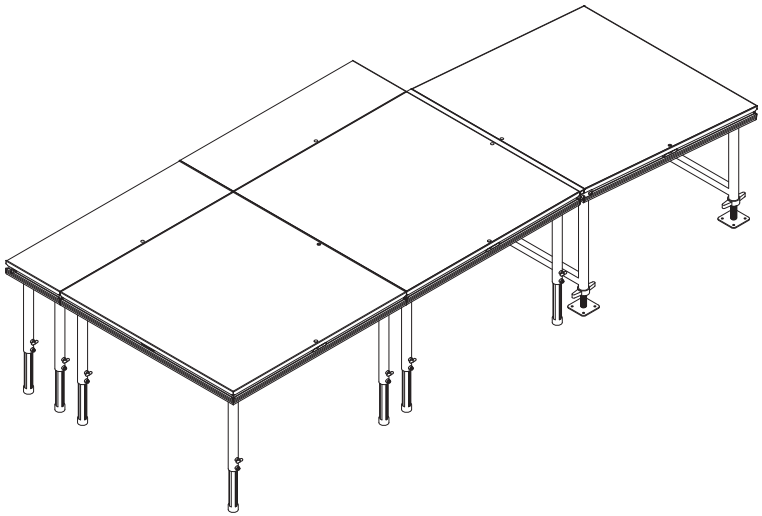

Figure12

ASSEMBLY OF RAMP TO MIDDLE LANDING

First install stage connecting panel (RUCP or RUCPAL) to ramp middle landing platform using the hardware provided as shown in figure 5

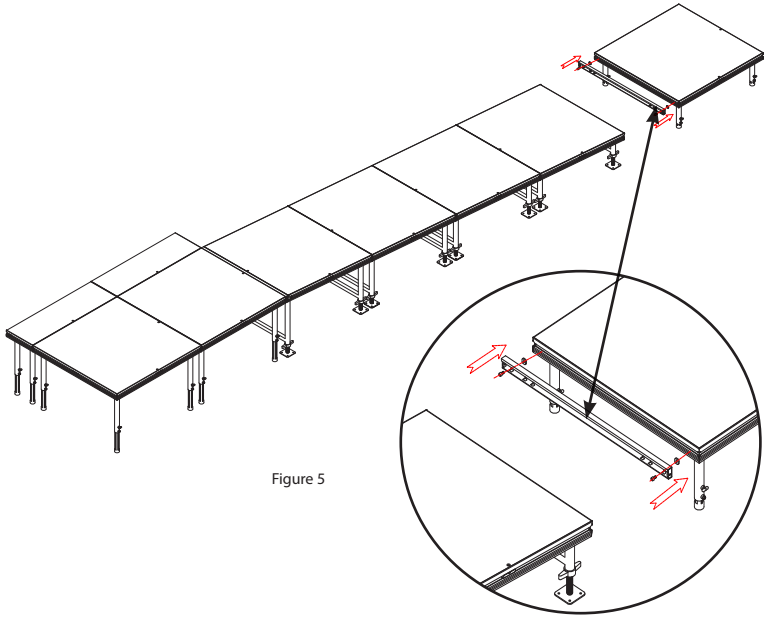

Figure 5

Next attach the platform with the installed stage connecting panel (RUCP or RUCPAL) to the ramp with provided hardware as shown in figure 6

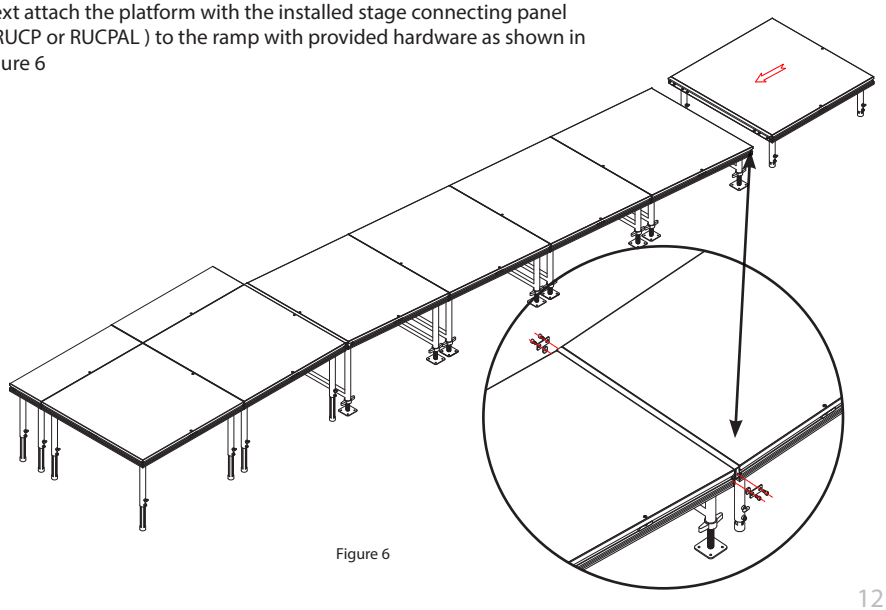

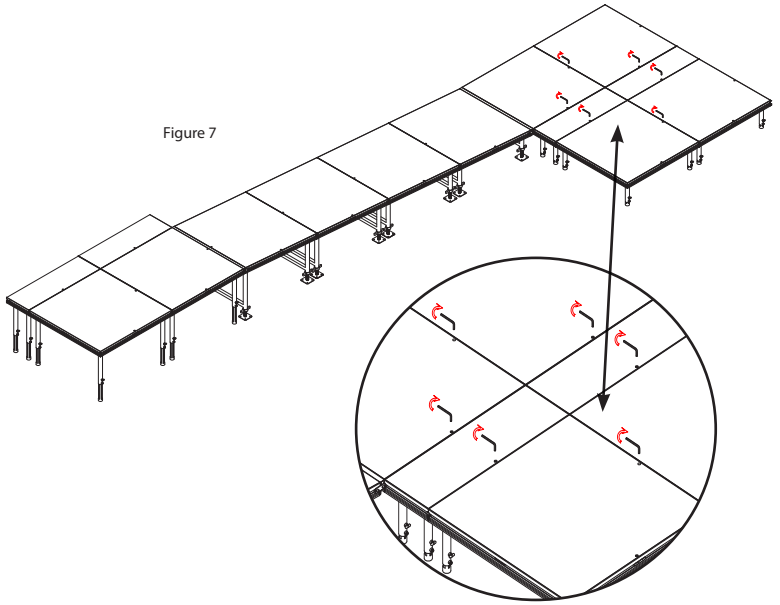

Figure 6

Create the middle landing as shown in figure 7 by adding multiple platforms and locking them together using the hex key.

Figure 7

Install stage connecting panel (RUCP or RUCPAL) to ramp middle landing platform using the hardware provided as shown in figure 8

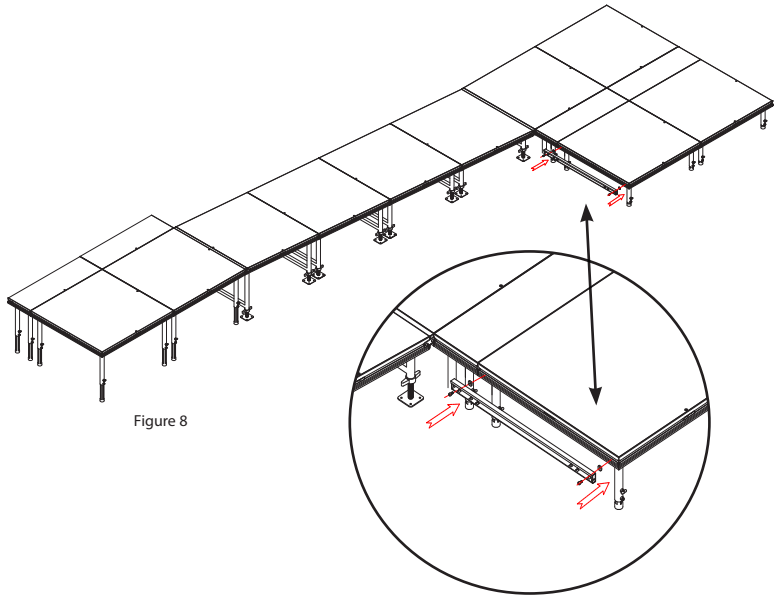

Figure 8

Next attach the platform with the installed stage connecting panel (RUCP or RUCPAL) to the ramp with provided hardware as shown in figure 9

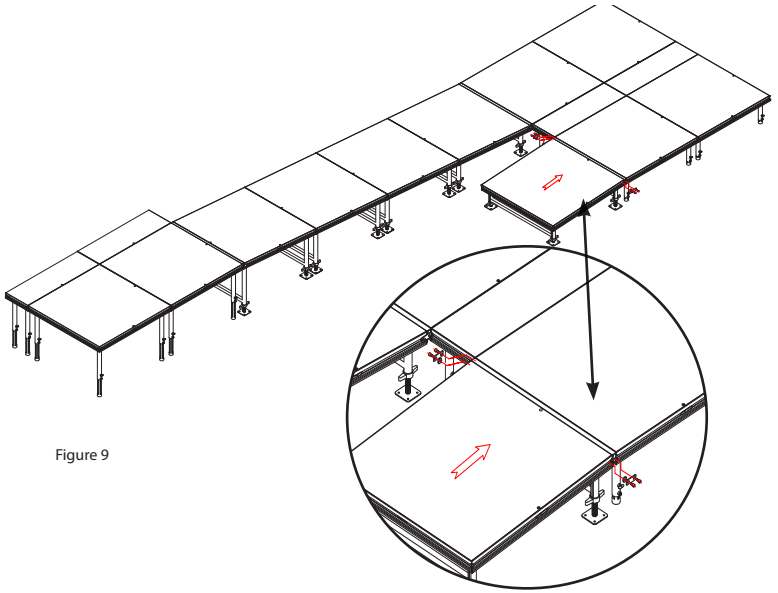

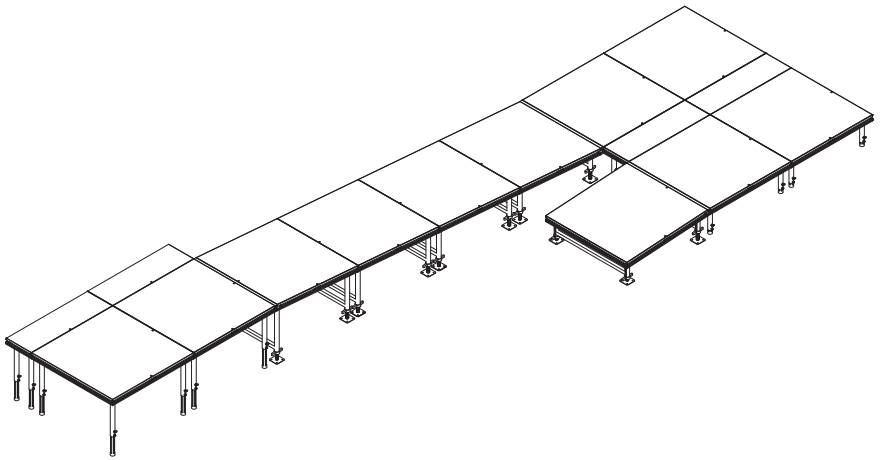

Figure 9

ASSEMBLY OF BOTTOM PLATE TO RAMP

Attach bottom plate to the ramp with provided hardware as shown in figure 13

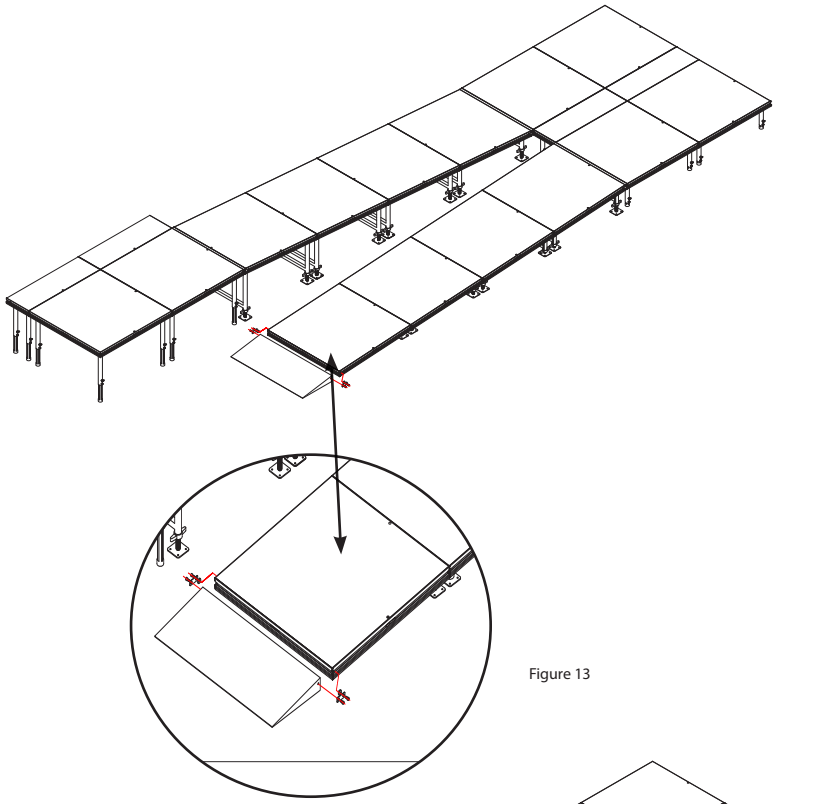

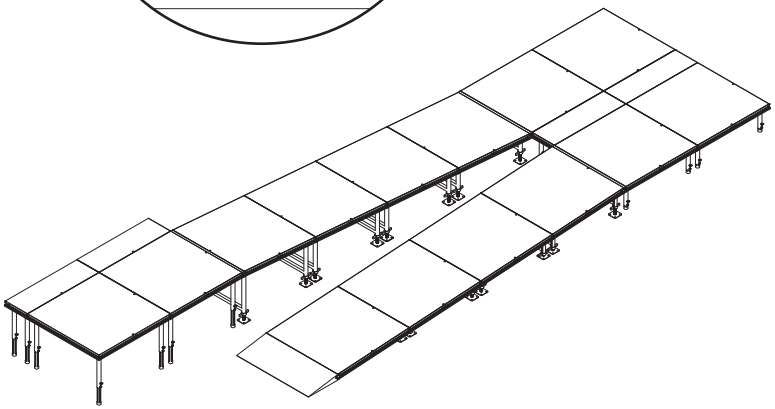

Figure 13

INSTALLATION OF RAMP TO INTELLISTAGE STAGE

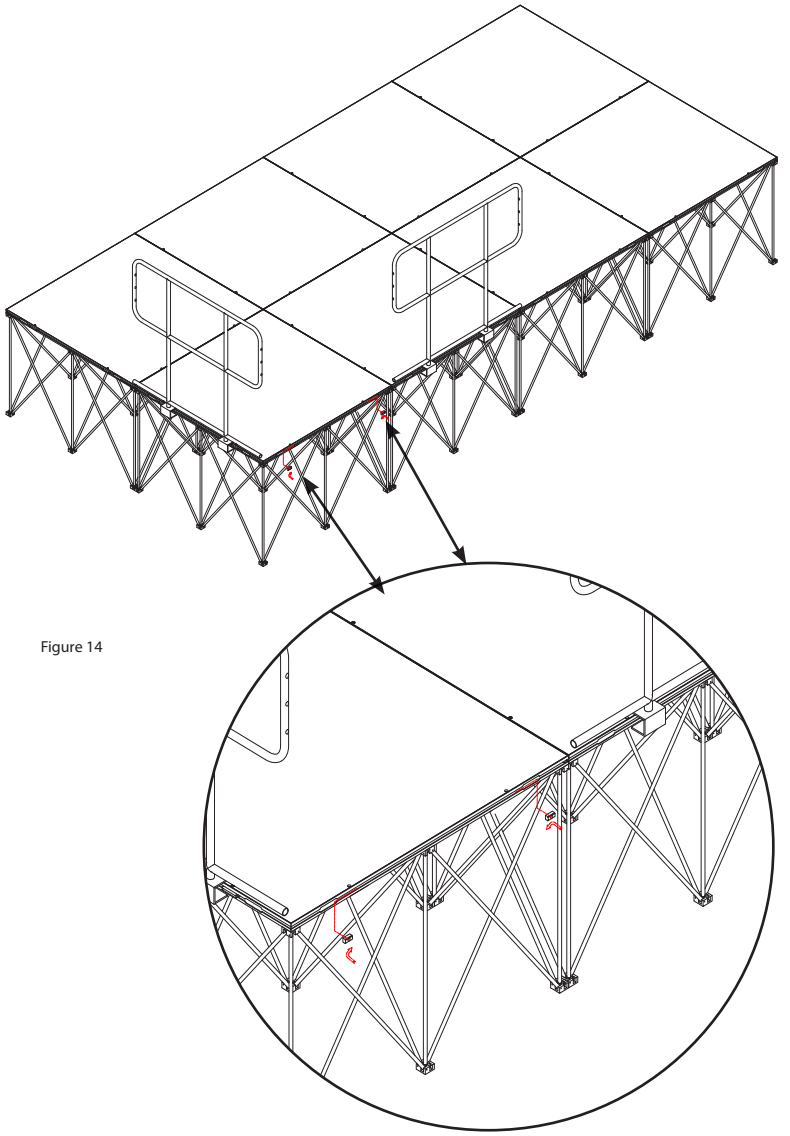

Figure 14

Slide assembly inserts into Intellistage platform as shown in figure 14

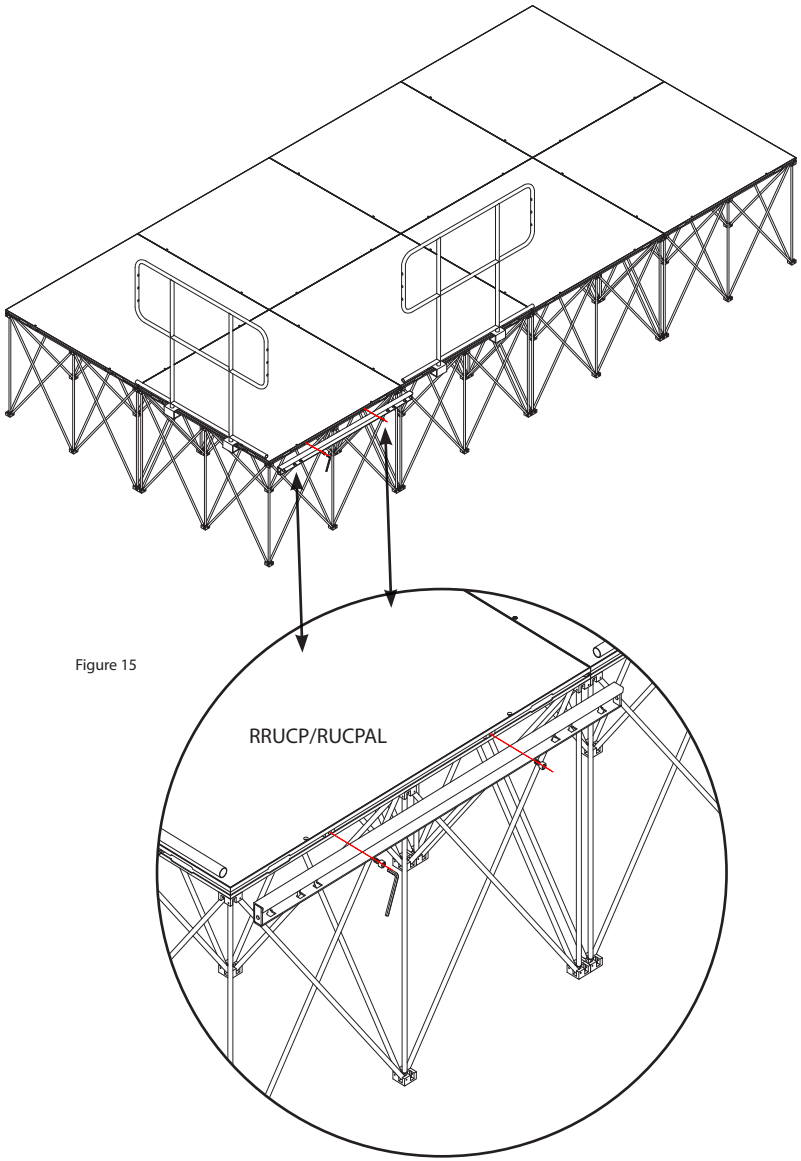

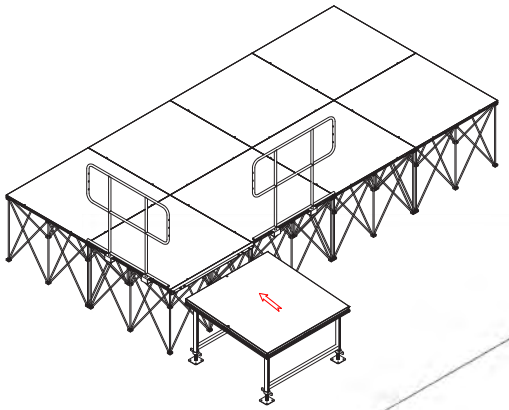

Figure 15

Attach RRUCP/RRUCPAL connecting panel to stage platform with included hardware and hex key as shown in figure 15

Place top ramp platform to next to installed stage connecting panel

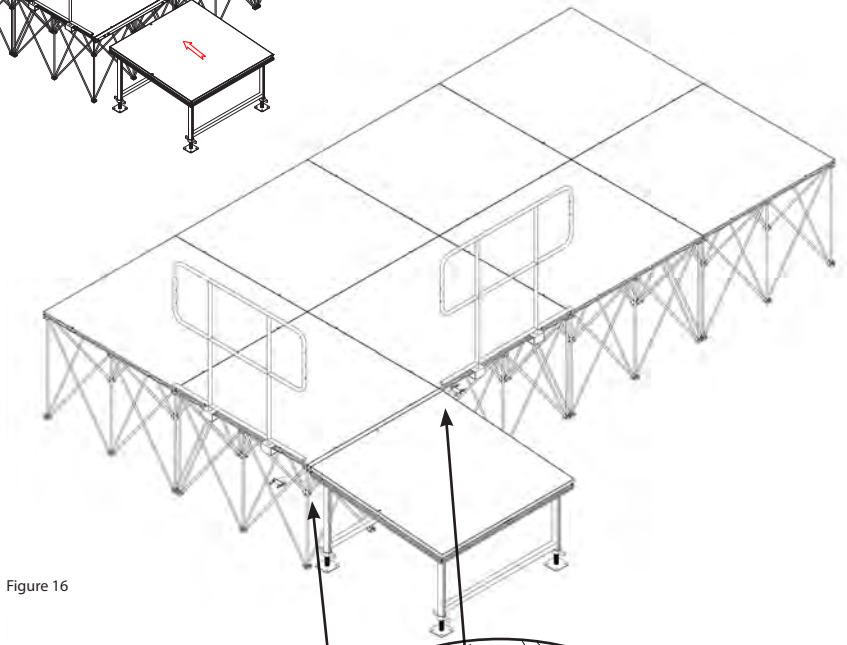

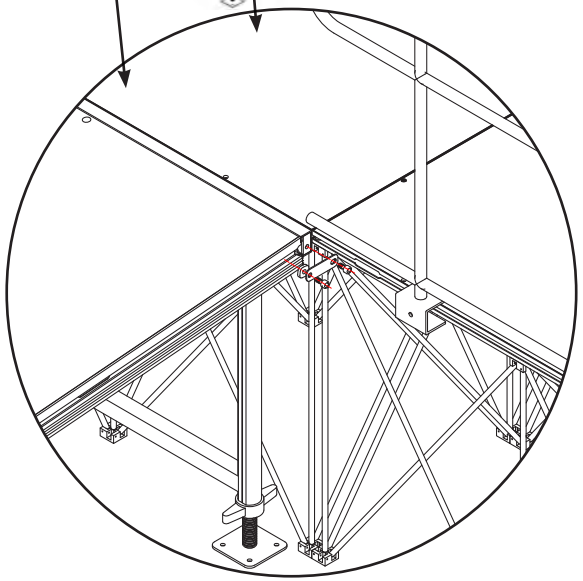

Figure 16

Secure top ramp platform to stage as shown in figure 16

INSTALLATION OF RAMP TO TO QUICKLOCK STAGES

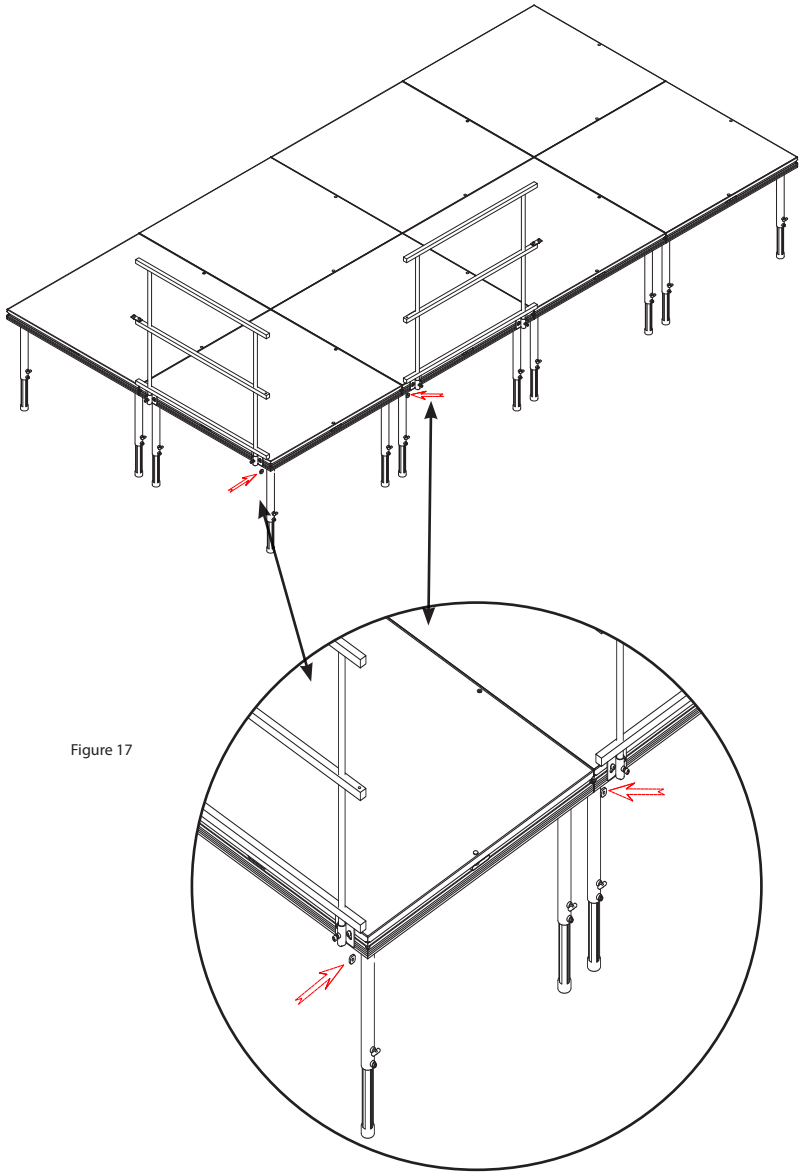

Figure 17

Slide assembly inserts into QuickLock platform as shown in figure 17

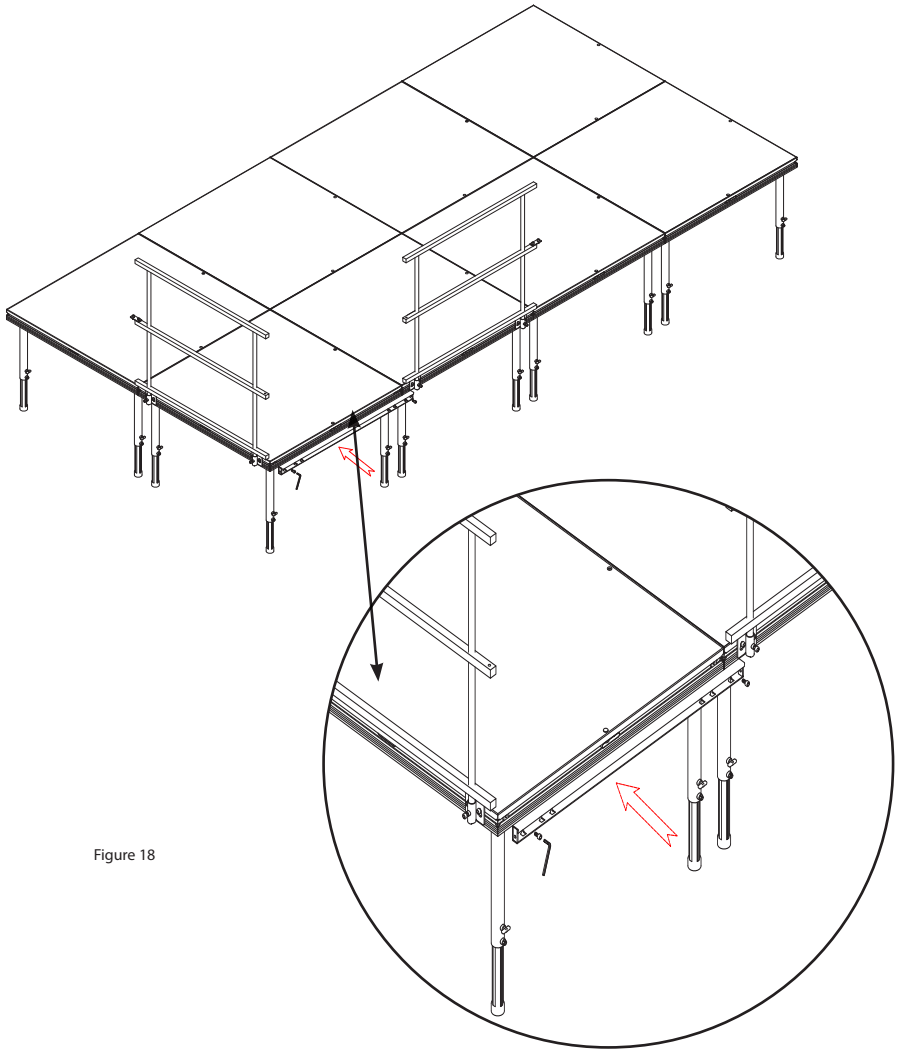

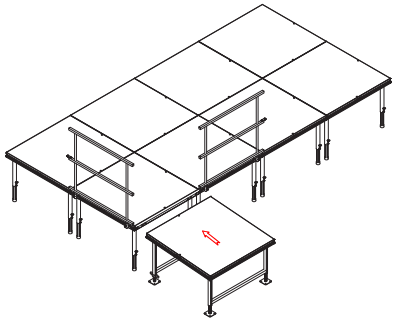

Figure 18

Attach RRUCP/RRUCPAL connecting panel to stage platform with included hardware and hex key as shown in figure 18

Place top ramp platform next to installed stage connecting panel

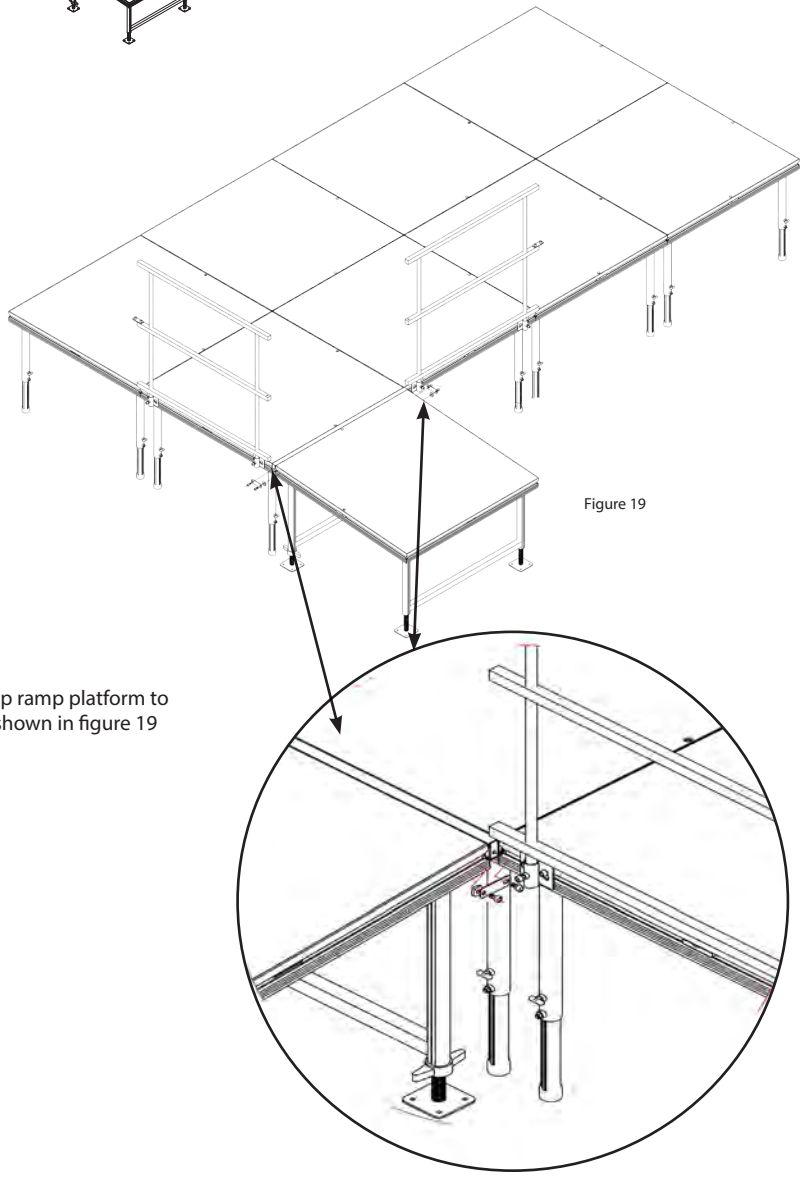

Figure 19

Secure top ramp platform to stage as shown in figure 19

INSTALLATION OF RAMP TO PROFLEX STAGES

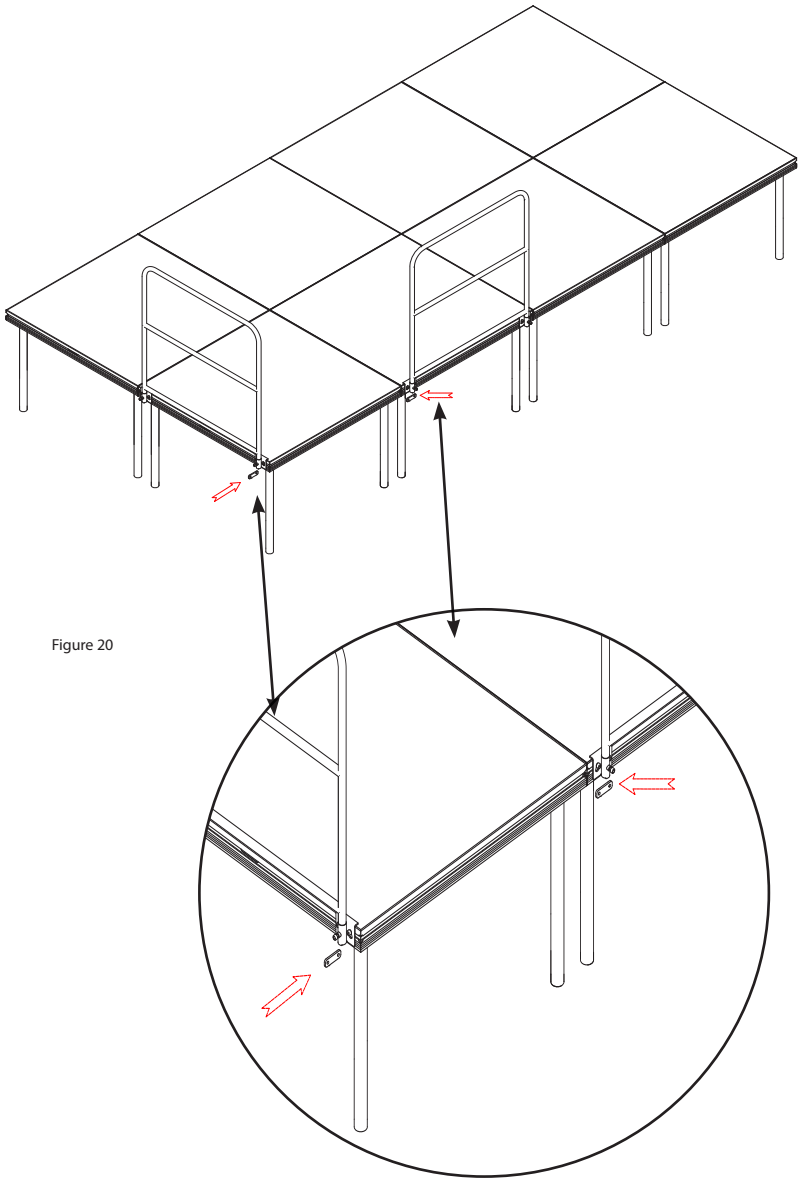

Figure 20

Slide assembly inserts into ProlFlex platform as shown in figure 20

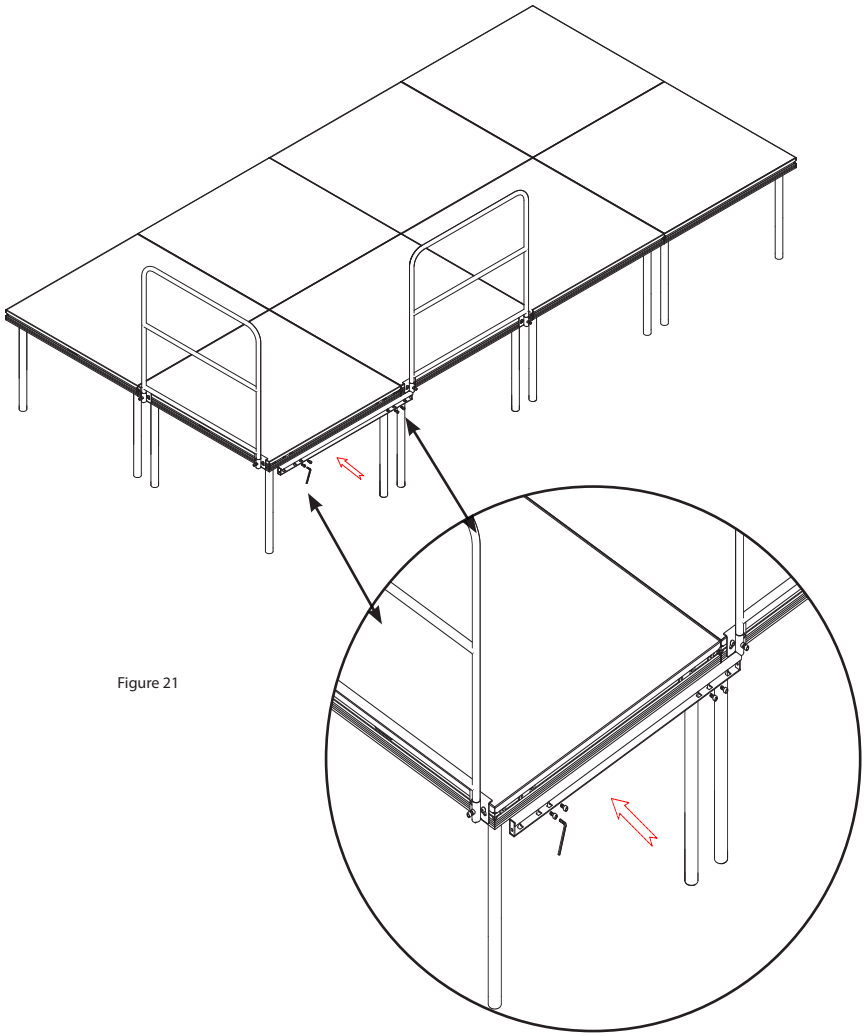

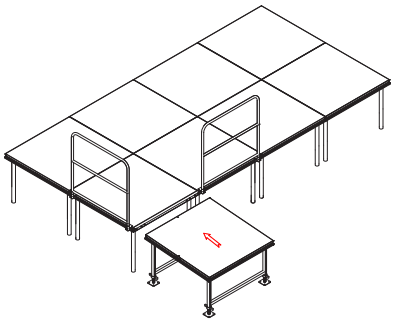

Figure 21

Attach RRUCP/RRUCPAL connecting panel to stage platform with included hardware and hex key as shown in figure 21

Place top ramp platform next to installed stage connecting panel

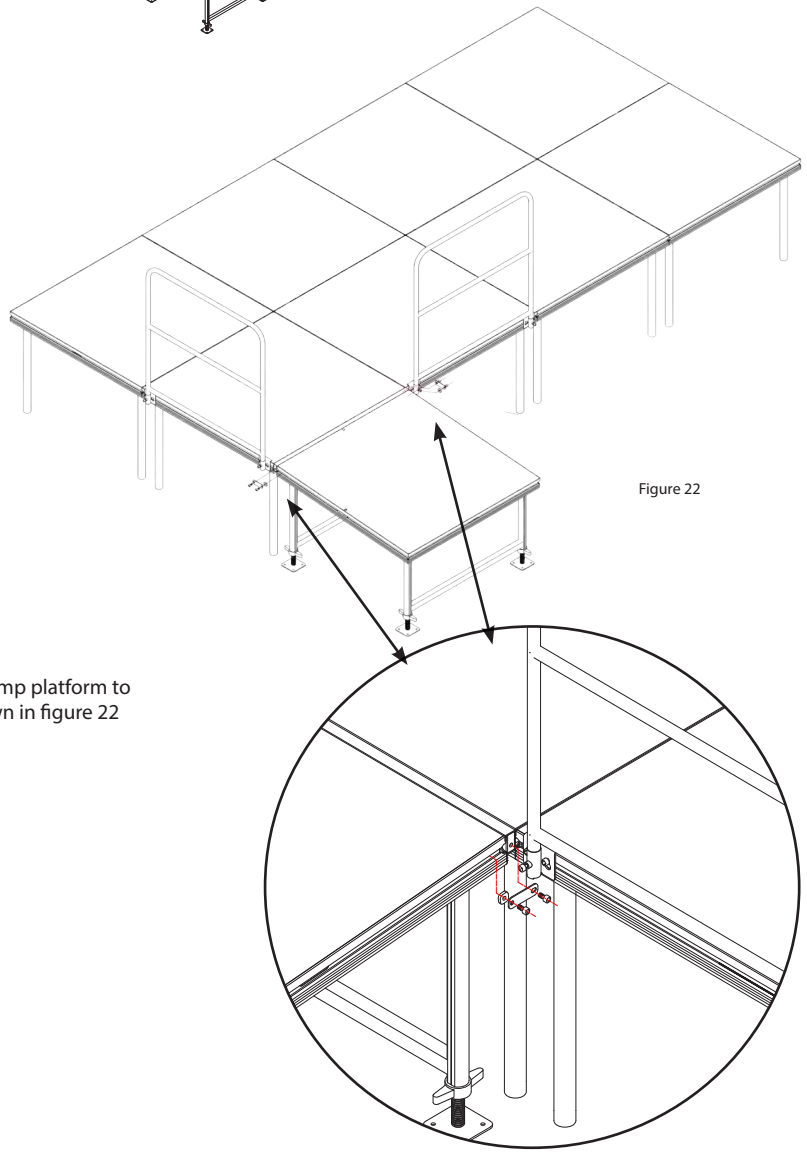

Figure 22

Secure top ramp platform to stage as shown in figure 22

INSTALLATION OF RAMP TO ALL TERRAIN STAGES

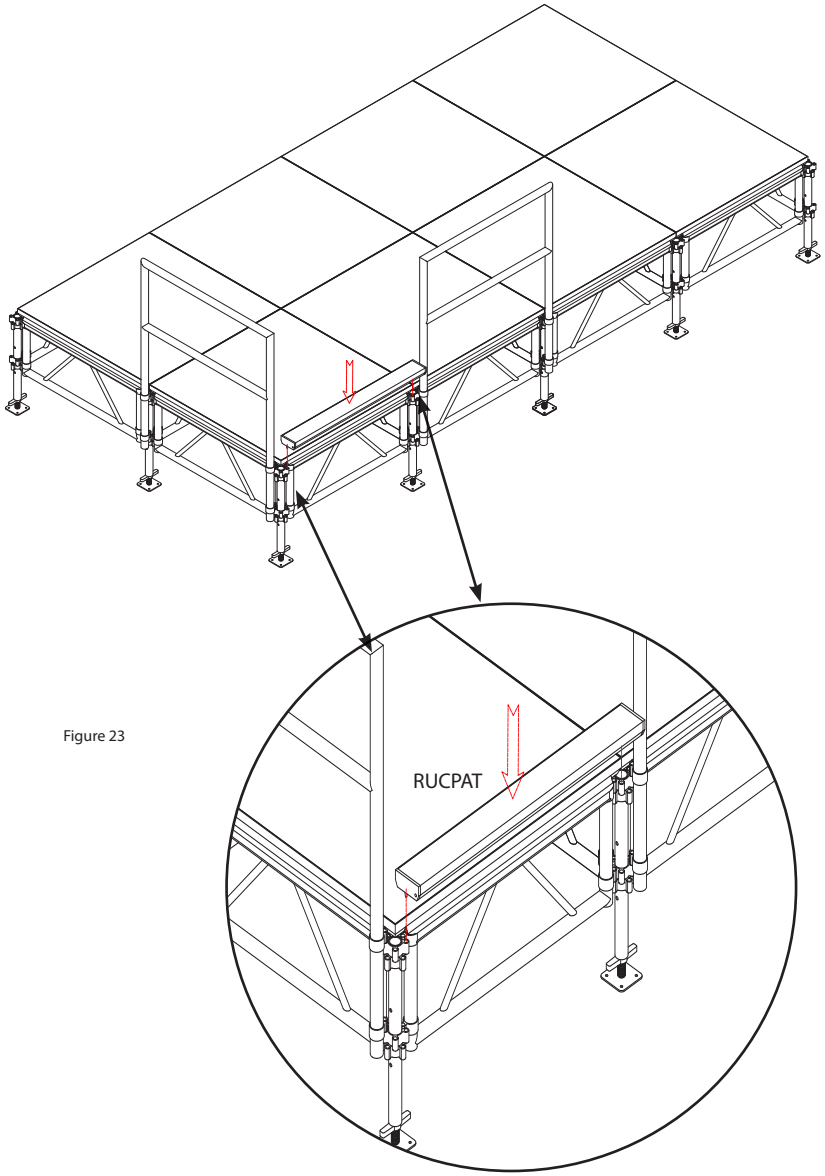

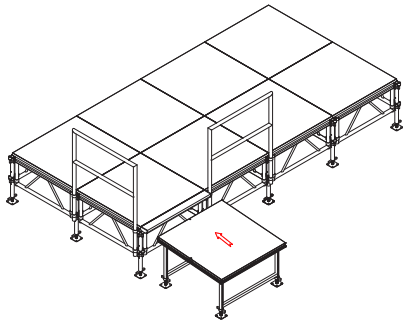

Figure 23

Attach RUCPAT connecting panel to stage platform as shown in figure 23

Place top ramp platform to next to installed stage connecting panel

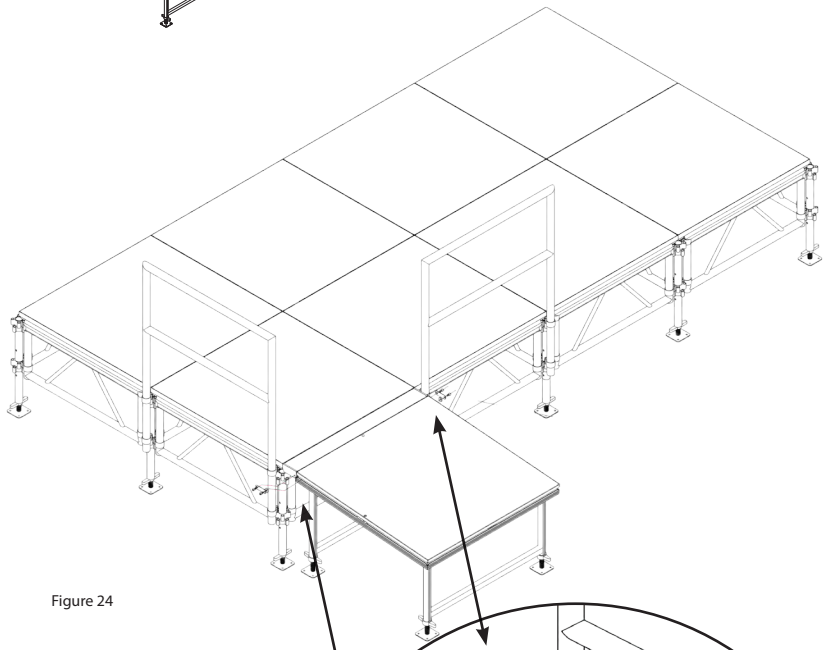

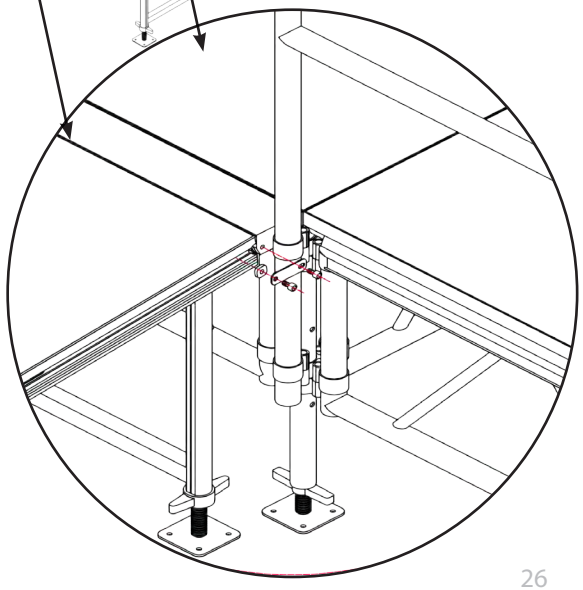

Figure 24

Secure top ramp platform to stage as shown in figure 24

INSTALLATION OF RAMP TO STAGING 101 STAGES

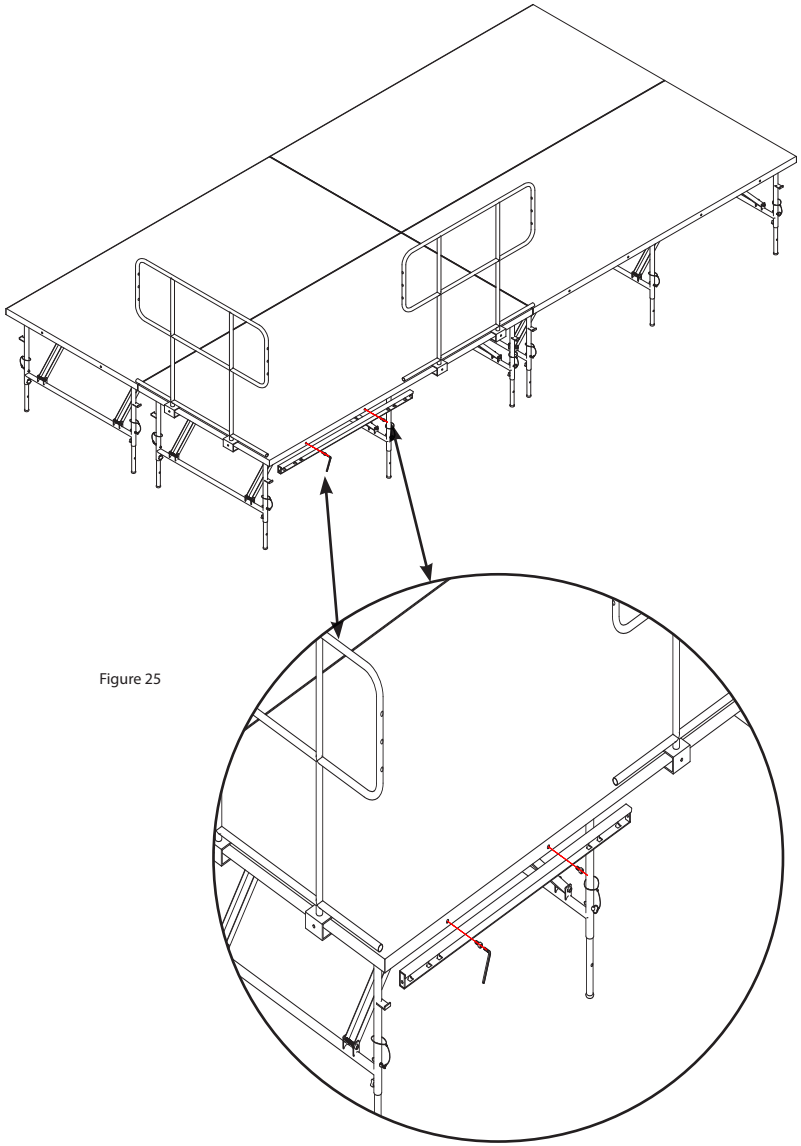

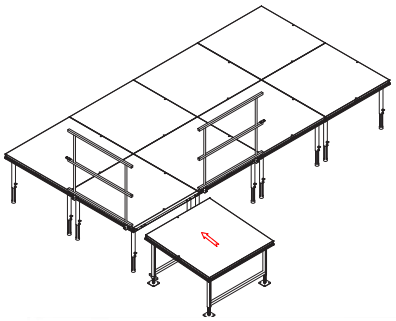

Figure 25

Attach RRUCP/RRUCPAL connecting panel to stage platform with included hardware and hex key as shown in figure 25

Place top ramp platform next to installed stage connecting panel

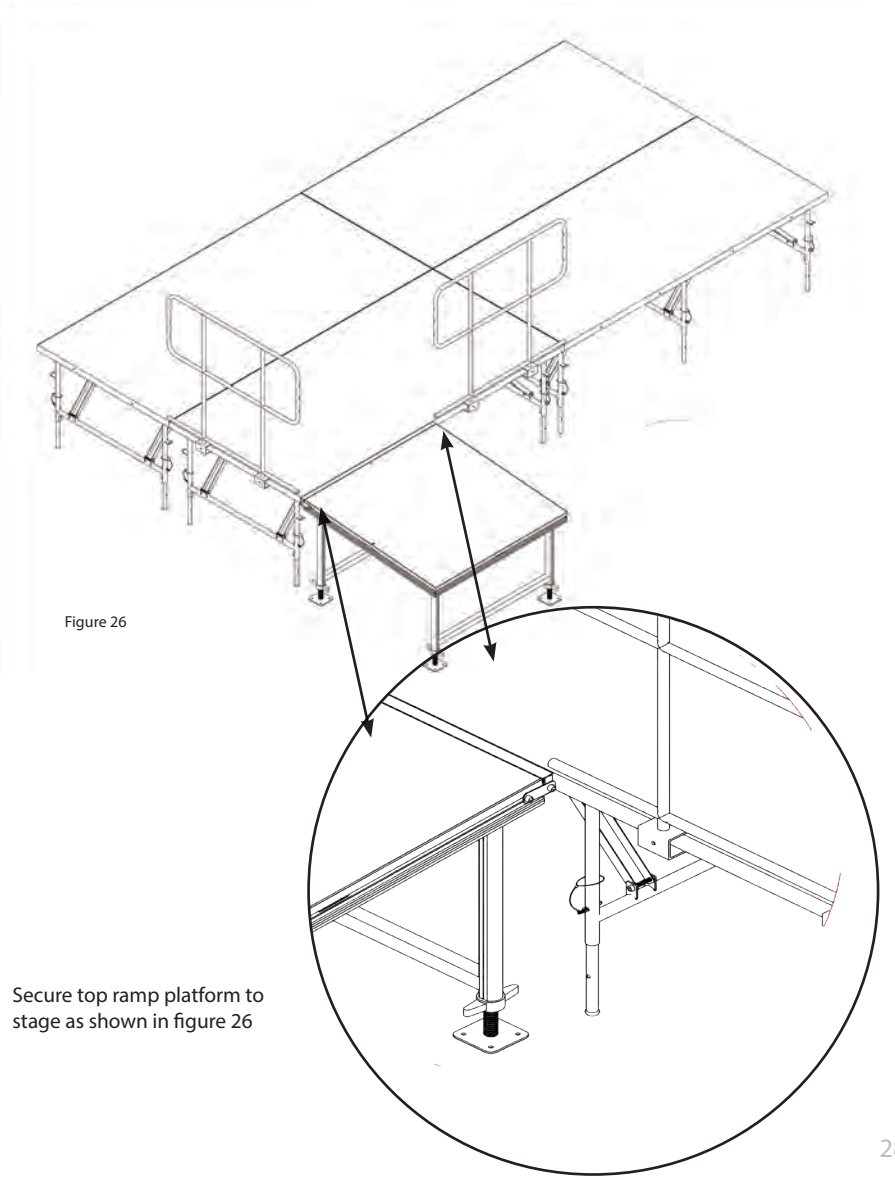

Figure 26

Secure top ramp platform to stage as shown in figure 26

INSTALLATION OF RAMP FOR OTHER INSTALLATIONS

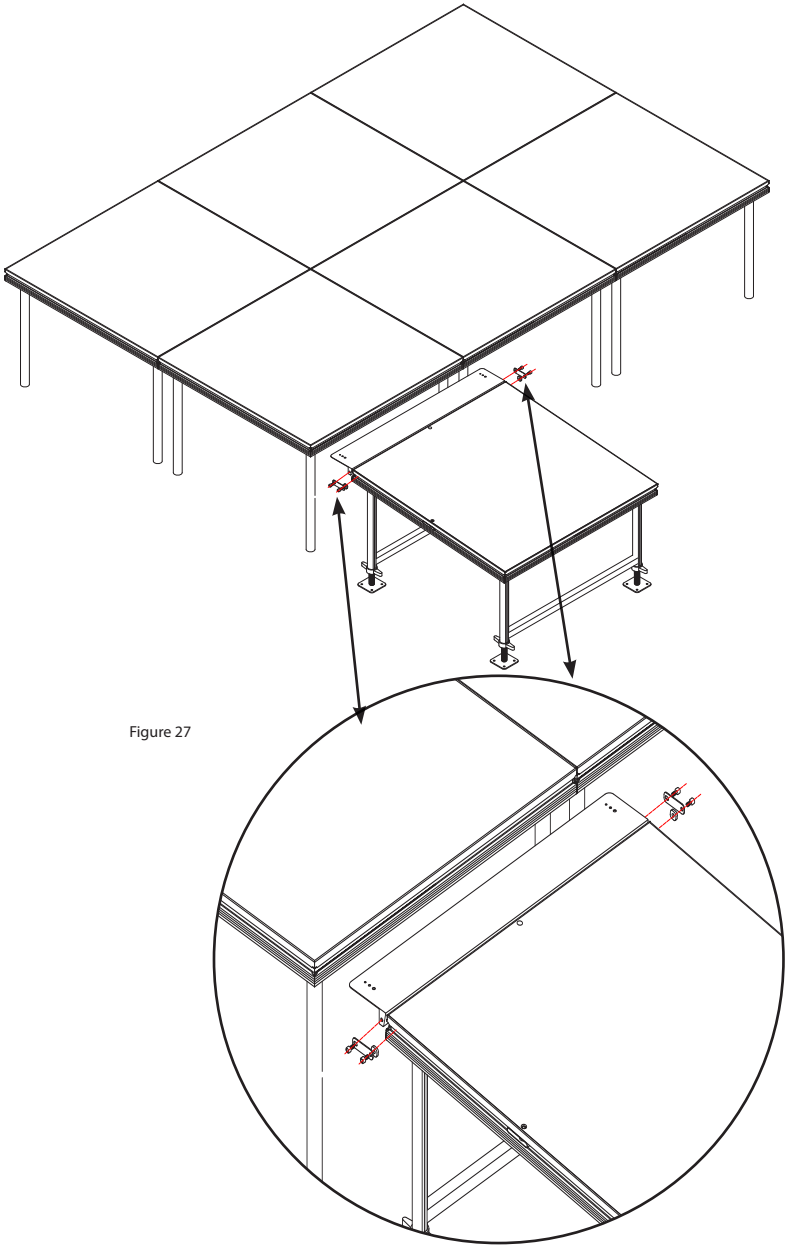

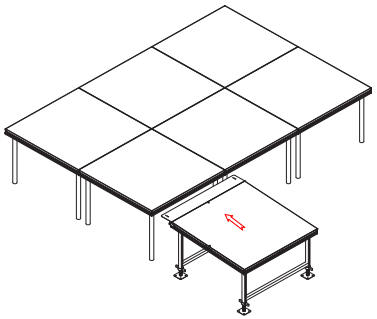

Figure 27

Attach universal adapter connecting panel to top ramp platform as shown in figure 27

Place top ramp platform with installed stage connecting panel next to surface you would like to attach the ramp too

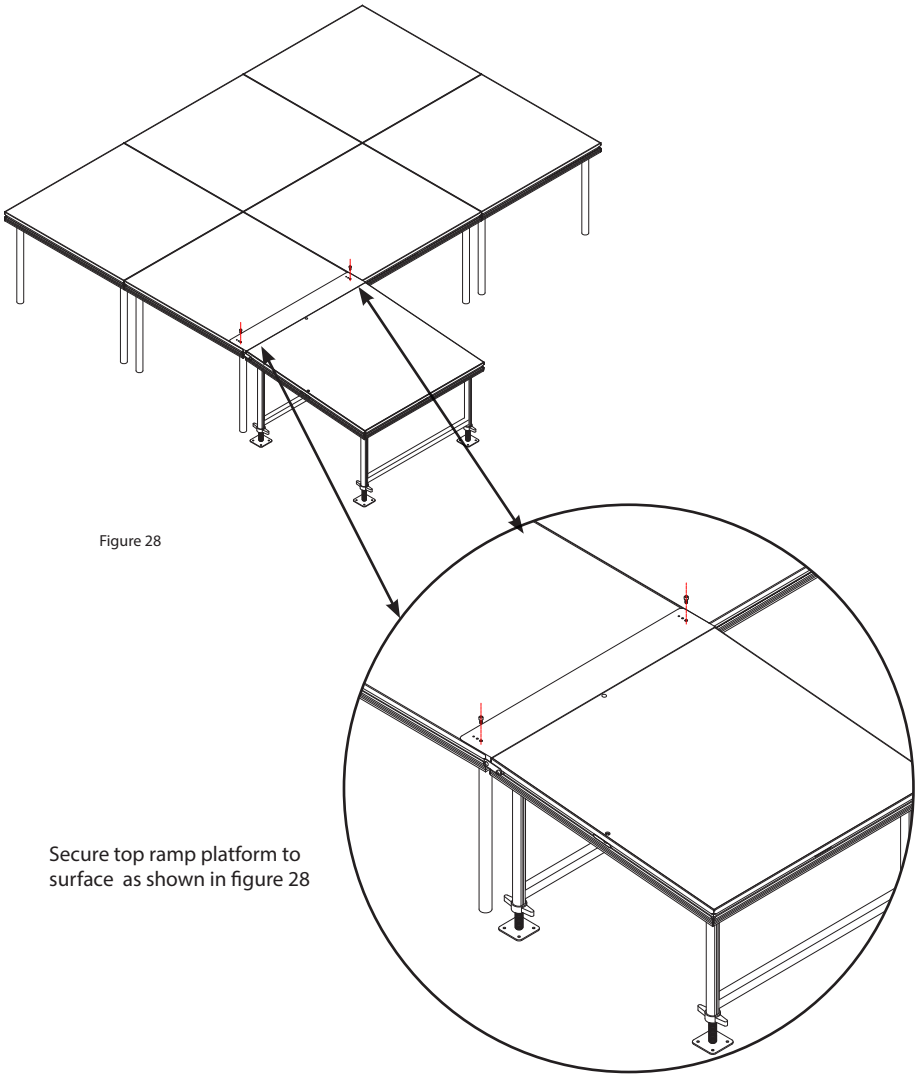

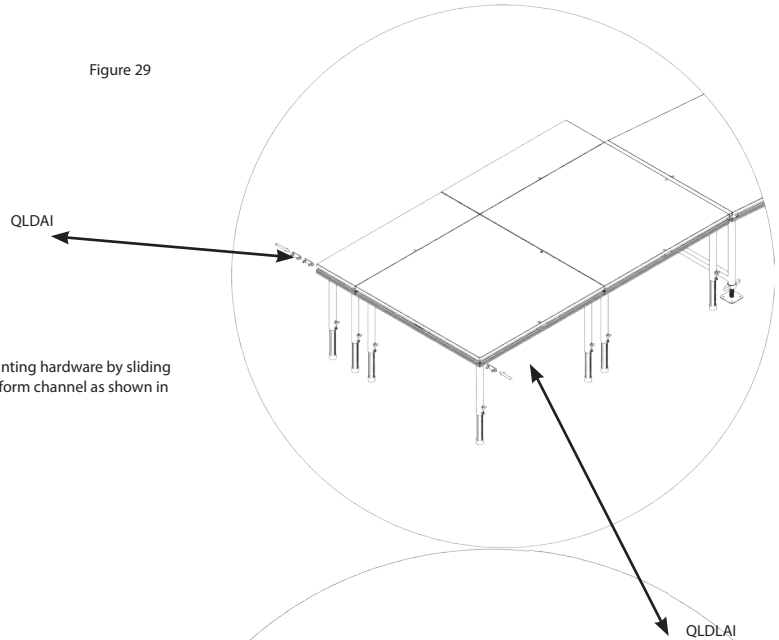

Figure 28

Secure top ramp platform to surface as shown in figure 28

GENERAL GUARDRAIL ASSEMBLY

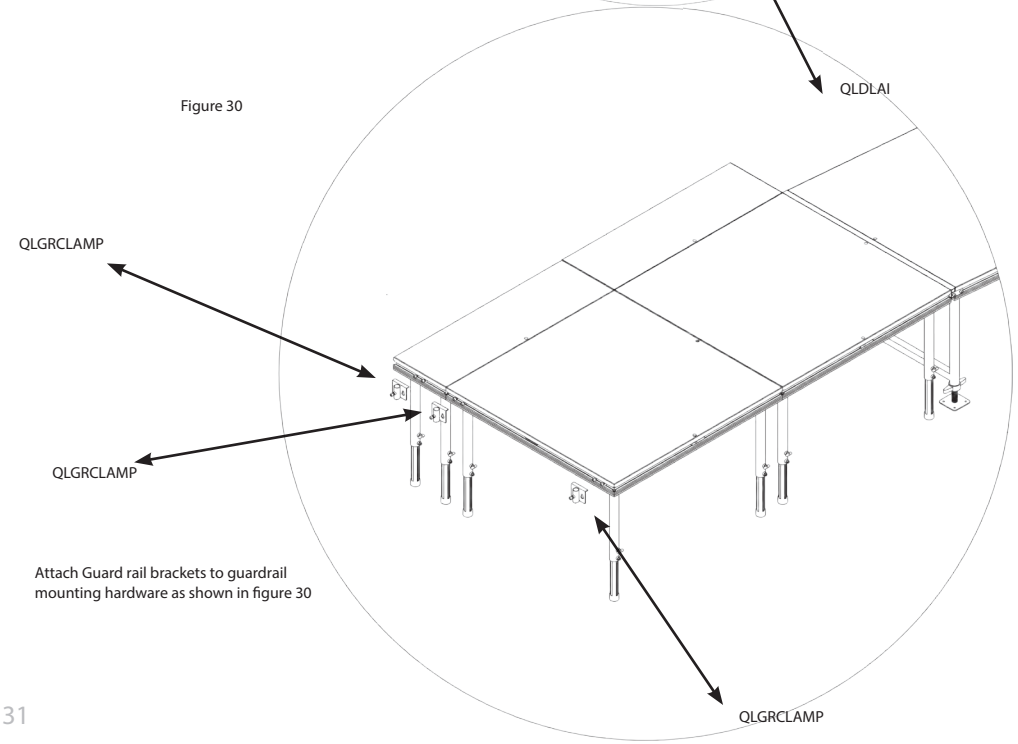

Slide double assembly insert QLDAI into stage platfrom and attach guard rail mounting hardware QLGRCLAMP to stage platforms as shown below in figures 29 and 30. At this stage do not tighten hardware brackets to the platform. Wait until the guardrails are installed onto brackets before tightening guardrail brackets to the platform.

Figure 29

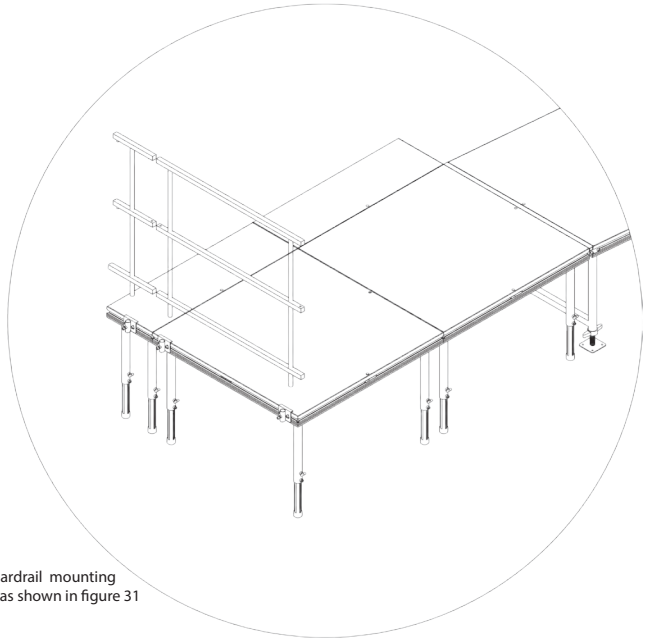

Insert guardrail mounting hardware by sliding it into the stage platform channel as shown in figure 29

Figure 30

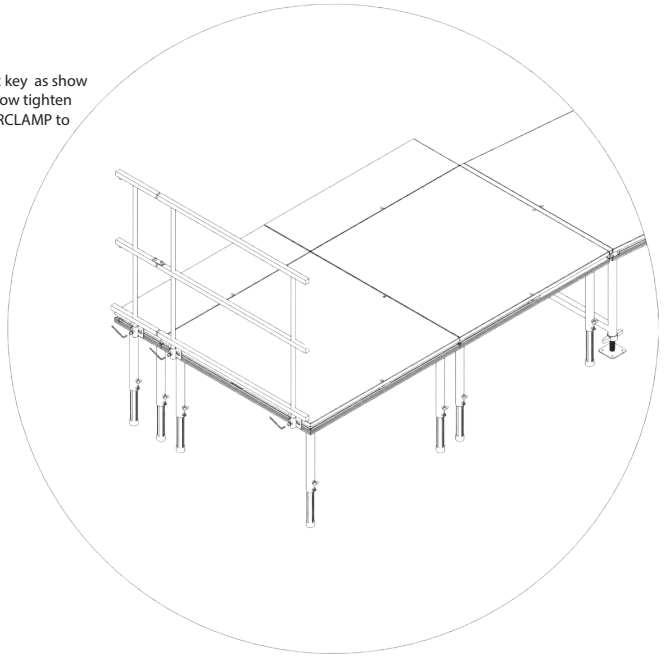

Attach Guard rail brackets to guardrail mounting hardware as shown in figure 30

Figure 31

Insert guardrails into guardrail mounting hardware OLGRCLAMP as shown in figure 31

Figure 32

Lock guardrails into place using hex key as show in figure 32. At this stage you can now tighten guardrail mounting hardware OLGRCLAMP to the platform.

GUARDRAIL ASSEMBLY OF RAGRD4, RASGRD AND QLGRS4

Mount guardrail mounting hardware to platform as shown in general guardrail assembly in the previous section of this manual. Then insert RASGRD as shown below in figure 33 and lock into place using hex key

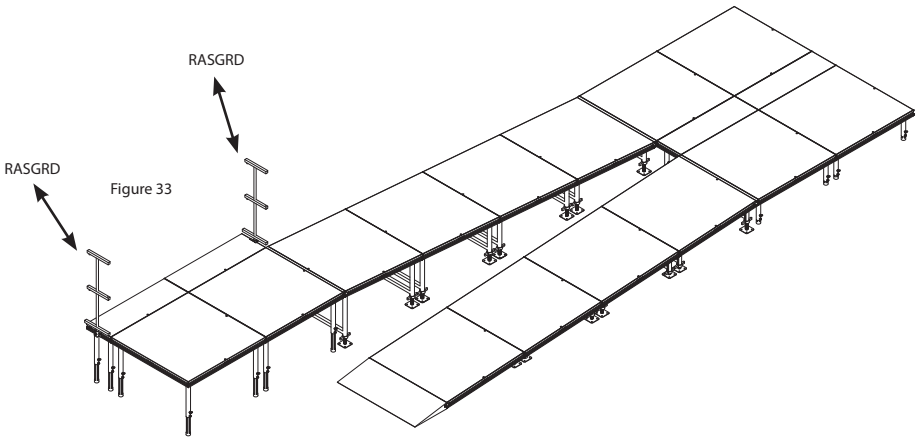

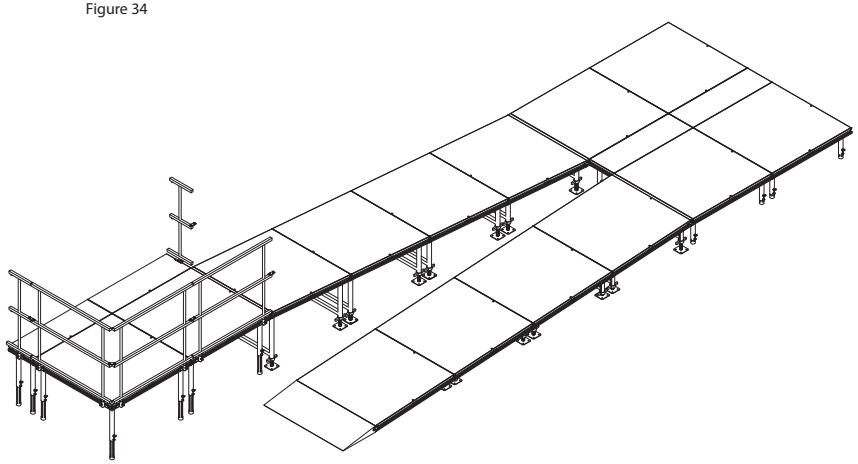

Figure 33

Continue attaching guardrails (QLGRS4) to the platforms as shown in figure 34 with hardware provided following the steps shown in general guardrail assembly in the previous section of this manual.

Figure 34

Attach RAGRD4, QLGRS4 and RASGRD guardrails together by sliding extention tubes into the openings on both guardrails as showed in the drawing and securing them with hardware as shown in figures 35 thru figure 38

Figure 35

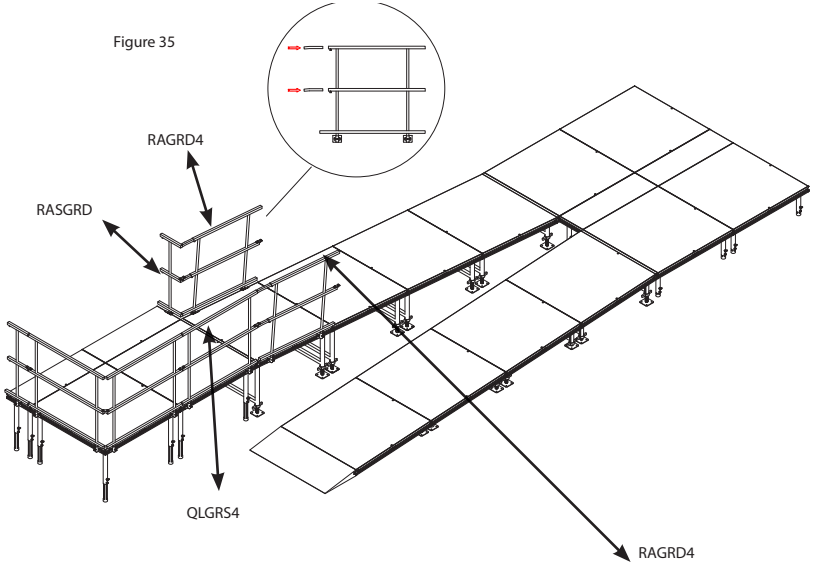

Figure 36

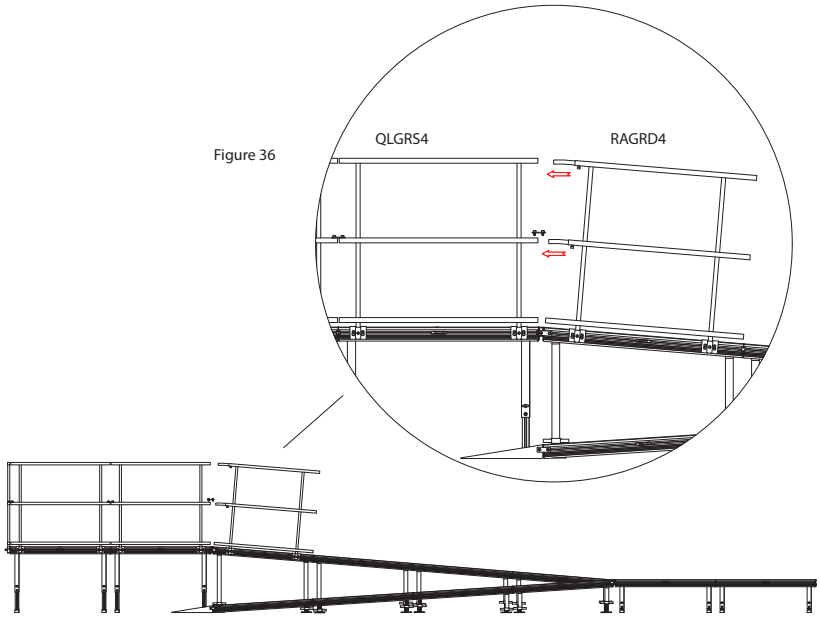

Figure 37

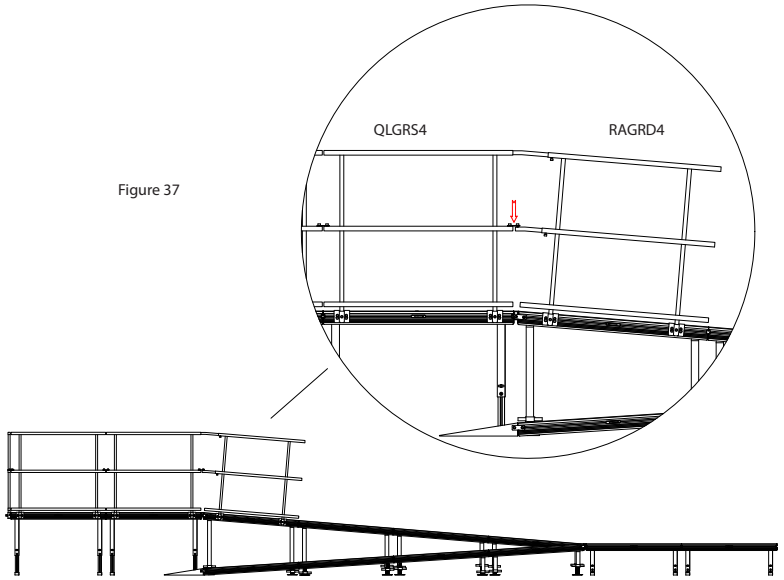

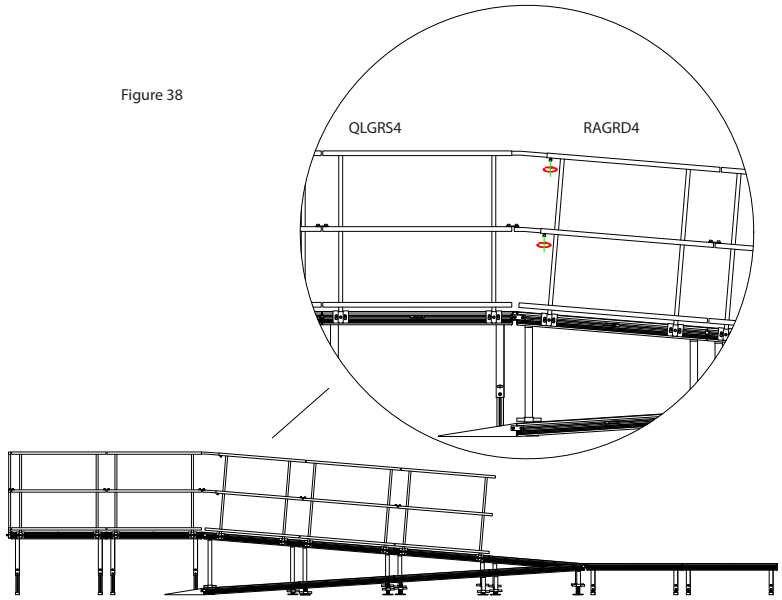

Figure 38

Continue the same procedure where needed (depending on your ramp configuratoin) as shown in figures 39 to 42

Figure 39

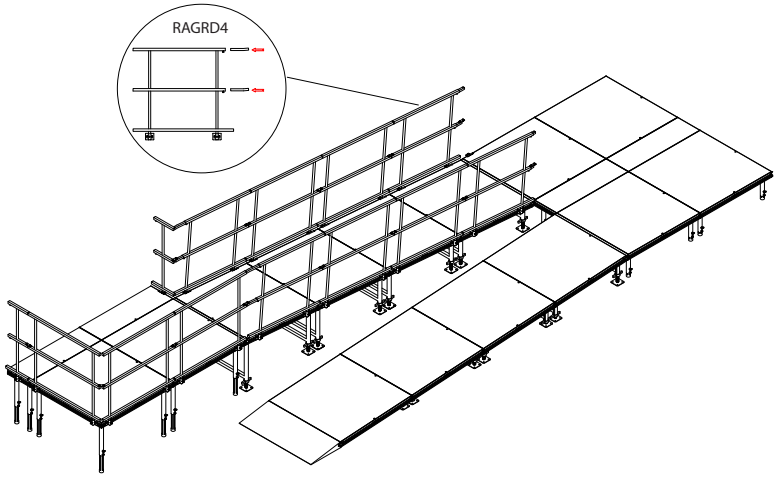

Figure 40

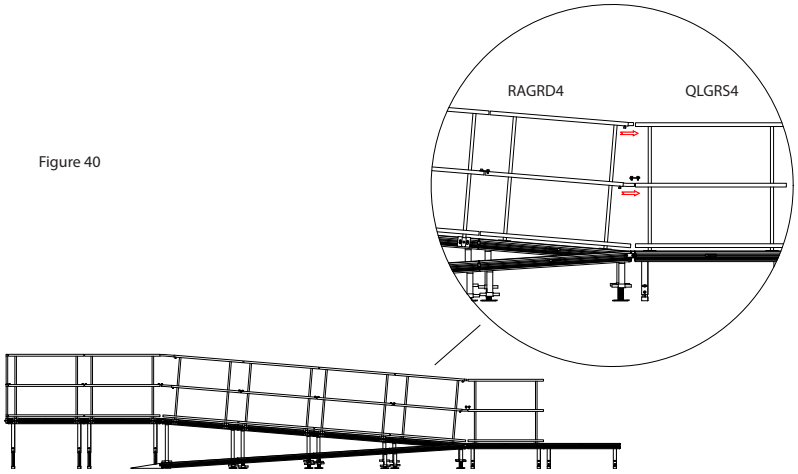

Figure 41

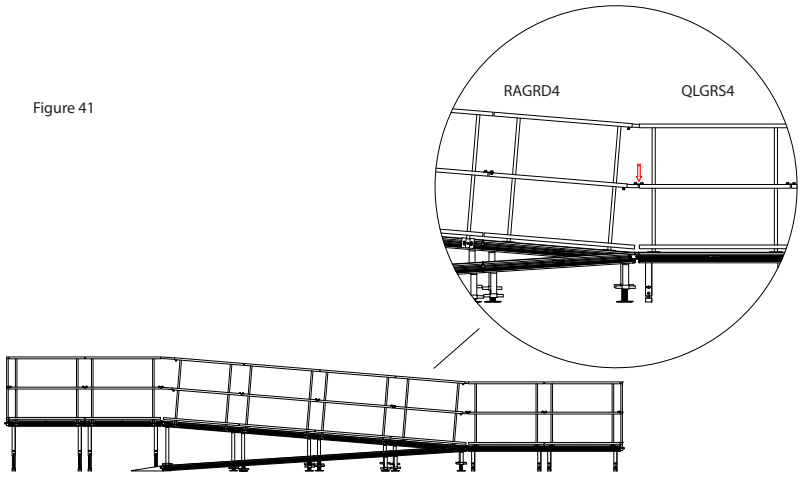

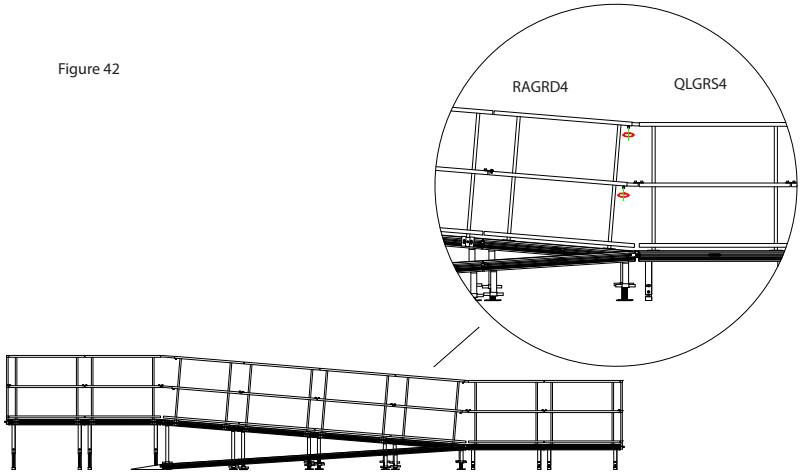

Figure 42

Continue the same procedure where needed as shown in figures 43 to 45

Figure 43
