

ASSEMBLY INSTRUCTIONS

STP16 | STEP FOR 16" HEIGHT STAGES

STEP

PARTS

- A** Guardrails x2
- B** Metal Step Frame x1
- C** Plastic Step x1
- D** Ganging Poles x2

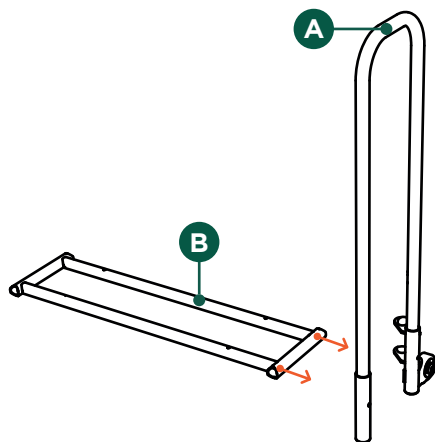

INCLUDED HARDWARE

- 1** Thick Bolts (M10x55) x4
- 2** Washers x4
- 3** Thin Bolts (M6x58) x4
- 4** Nuts (M6) x4
- 5** Lock Washers (M6) x4

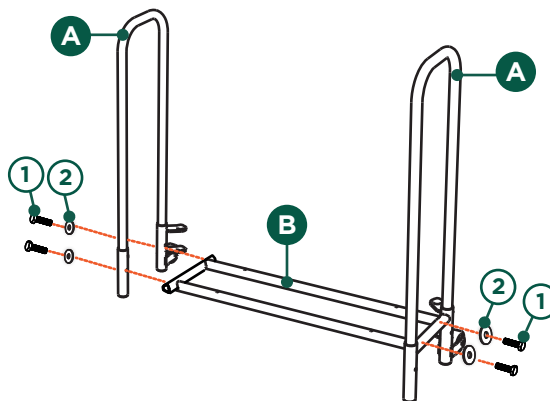

STEP ASSEMBLY

Begin by identifying all the Parts of the unit. Your unit should include the above Parts and Hardware. Note that one Guardrail is labeled "R" for right and one Guardrail is labeled "L" for left. In addition there are labels at each end of the metal step frame identifying right and left sides.

- 1** Begin by aligning one of the sides of the Metal Step Frame **B** to the inside of one of the Guardrails **A**.

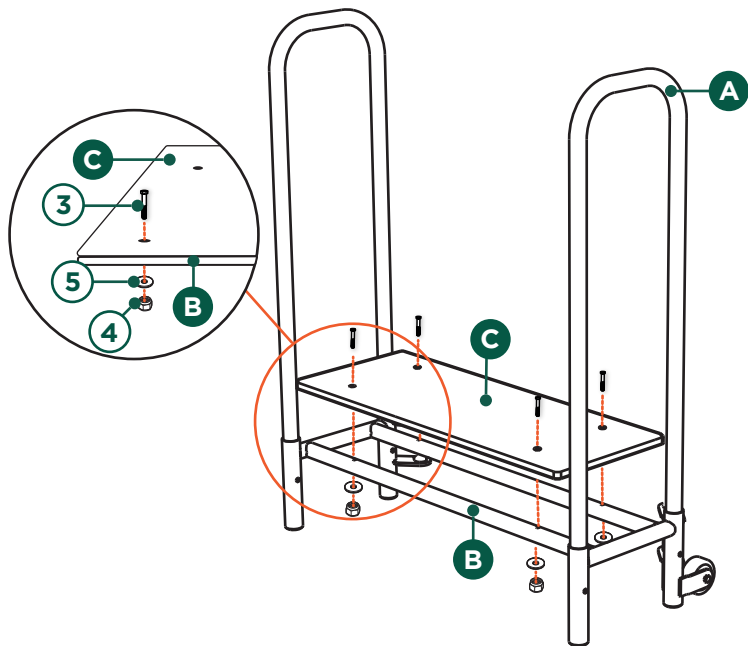

- 2** Once the two holes in the frame **B** are aligned with two holes on the Guardrail **A**, place the provided Washer **2** on the M10 Bolts **1** and thread the Bolts through the Guardrail and thread it into the ends of the Metal Step Frame. Repeat the same process on the left side of the unit by aligning the ends of the Metal Step frame with the holes on the second Guardrail.

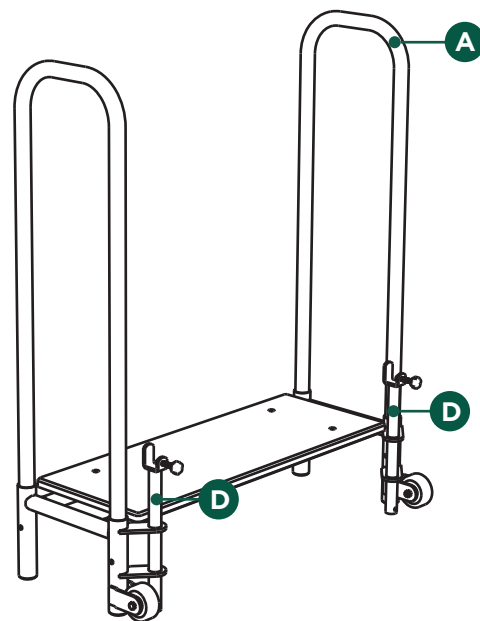

Make sure that the side of the metal Step Frame is marked the same as the Guardrail.

- 3** Once all the Bolts are tightened and the structure is stable, continue to attach the Plastic Step **C** to the Frame **B**. Begin by placing the Step over the Metal Step Frame. Align the four holes on the Plastic Steps with the four holes in the Metal Frame. Once the holes are aligned, thread four M6 thin Bolts **3** through the Step and through the Metal Frame. Use the M6 Nuts **5** and lock Washers **4** provided to fasten the Step to the Frame.

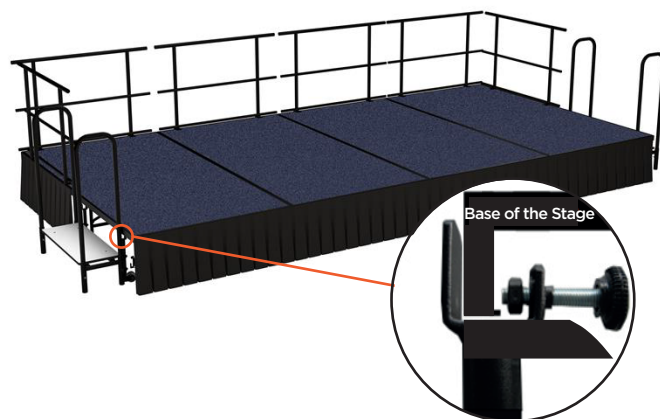

- 4** To complete the unit insert the two Poles **D** onto the Sockets located at the end of each Guardrail **A** as shown in the illustration below.

SECURING STAIR TO STAGE

- 1** Place the Step next to desired location adjacent to the Stage.
- 2** Raise the two connector pieces located behind the Step and anchor onto back of Stage apron. Use the Knobs to secure the connector Brackets to the Stage.

Double check all Bolts and Nuts to be tightened securely before use. Check all Bolts and Nuts periodically. Failure to completely tighten the Bolts and Nuts may result in tipping and possible injury!

Congratulations, your STEP FOR 16" HEIGHT STAGES is now assembled and ready to be used!

Dear Customer, Thank you for your purchase. Although extreme care goes into manufacturing & packaging of this product, mistakes are possible. If you encounter any missing parts or difficulty in assembly, please contact our customer service Toll Free at 1-800-261-4112 or info@nationalpublicseating.com for courteous & immediate resolution to your problem.
